Intelligence Estimate of the Situation in I Corps Zone (I CTZ) Republic of Vietnam

1. General. This estimate has been prepared to provide a concise evaluation of the enemy situation in I CTZ, RVN.

2. Terrain Analysis.

a. With the exception of coastal areas, the I Corps Zone does not lend itself to large scale military operations. It is bounded on the north by the DMZ and on the west by the poorly defined 227-mile border with Laos. The zone is divided into a populous and comparatively narrow coastal plain and a mountainous region which extends to the west, north and south outside the limits of the Corps Zone. Separating the two regions is a zone of piedmont three to five miles in width which is less densely settled than the plain and which supports dry farming. The western portion of the zone is an extremely rugged mountainous jungle with peaks rising to 6,000 feet. The jungle growth has three levels: (1) a closely matted growth covering the floor and restricting movement to a maximum of three miles a day cross country; (2) a tree layer rising to about 70 feet; and (3) another layer rising to about 170 feet. Both of the upper layers provide a canopy which restricts observation and permits unobserved movement on the ground.

b. The most important road in the I Corps Zone is National Route # 1. This route originates just south of the Demilitarized Zone, generally parallels the trace of the coast southward, extends to Saigon and finally terminates in Phnom Penh, Cambodia. There are four significant east/west roads, all of which join with National Route # 1. Route # 9 generally parallels the DMZ and leads into Laos. Route # 547 extends from the A Shau Valley to Hue. USMC forces have improved the eastern sections of the road and recently the enemy has improved the western sections. Route # 14 leads west and southwest from Danang into Kontum Province. Route # 74 originates south of Quang Ngai and terminates at Kontum City. With the exception of Route # 1, the roads in I Corps are generally characterized by sharp curves, steep grades and loose surfaces. They are subject to landslides and washouts during the rainy season. USMC forces have constructed additional roads for local use. The longest stretch of newly constucted road lies between Danang and the area of An Hoa (approx. 20 miles). The enemy has continuously harassed and sabotaged the roads in I Corps.

3. Enemy Order of Battle

a. Within the I CTZ, the DMZ and adjacent areas of Laos and NVN, there are 86,365 enemy troops of all categories (confirmed, probable, and possible). Generally, the enemy forces are disposed as follows:

Quang Ngai	5	2,755
	65	39,870
GUERRILLAS		25,045
ADMIN SERVICES		6,550
	Confirmed Total	71,465
POSSIBLE/PROBABLE		14,900
	Possible Total	86,365

4. Enemy Capabilities. Listed below are enemy capabilities in the probable order of adoption.

Intelligence Estimate of the Situation in I Corps Zone (I CTZ)
Republic of Vietnam

1. General. This estimate has been prepared to provide a concise evaluation of the enemy situation in I CTZ, RVN.

2. Terrain Analysis.

a. With the exception of coastal areas, the I Corps Zone does not lend itself to large scale military operations. It is bounded on the north by the DMZ and on the west by the poorly defined 227-mile border with Laos. The zone is divided into a populous and comparatively narrow coastal plain and a mountainous region which extends to the west, north and south outside the limits of the Corps Zone. Separating the two regions is a zone of piedmont three to five miles in width which is less densely settled than the plain and which supports dry farming. The western portion of the zone is an extremely rugged mountainous jungle with peaks rising to 6,000 feet. The jungle growth has three levels: (1) a closely matted growth covering the floor and restricting movement to a maximum of three miles a day cross country; (2) a tree layer rising to about 70 feet; and (3) another layer rising to about 170 feet. Both of the upper layers provide a canopy which restricts observation and permits unobserved movement on the ground.

b. The most important road in the I Corps Zone is National Route # 1. This route originates just south of the Demilitarized Zone, generally parallels the trace of the coast southward, extends to Saigon and finally terminates in Phnom Penh, Cambodia. There are four significant east/west roads, all of which join with National Route # 1. Route # 9 generally parallels the DMZ and leads into Laos. Route # 547 extends from the A Shau Valley to Hue. USMC forces have improved the eastern sections of the road and recently the enemy has improved the western sections. Route # 14 leads west and southwest from Danang into Kontum Province. Route # 74 originates south of Quang Ngai and terminates at Kontum City. With the exception of Route # 1, the roads in I Corps are generally characterized by sharp curves, steep grades and loose surfaces. They are subject to landslides and washouts during the rainy season. USMC forces have constructed additional roads for local use. The longest stretch of newly constucted road lies between Danang and the area of An Hoa (approx. 20 miles). The enemy has continuously harassed and sabotaged the roads in I Corps.

3. Enemy Order of Battle

a. Within the I CTZ, the DMZ and adjacent areas of Laos and NVN, there are 73,489 enemy troops of all categories (confirmed, probable, and possible). Generally, the enemy forces are disposed as follows:

Province	Bn	Total Strength
Quang Tri	31	17,900
Thua Thien	15	7,135
