*In the "estimates" of the marine corps, *fuel* is put down at $7 per cord, and the same price is used in the above calculations,

The quanity and the monthly market price vary at different stations, and the officers receive this allowance upon a certificate of their commanding officer.

NOTE.—The allowance of $10 per month for responsibility with regard to clothing, &c., is made to—

1. The senior or commanding marine officer, in a squadron.
2. The senior or commanding officer of the marine guard on board a ship-of-the-line, or a frigate.
3. The commanding officer of marines at headquarters, and at each of the navy yards.

NOTE.—The sea and other service affixed to the names of officers in the Register, is computed to the 1st January, 1854. As a general rule, the "sea service," with which an officer is credited, is for duty performed under orders from the Department, as part of the complement of a vessel-of-war, belonging to the Navy, in commission for sea service. Officers on the Coast Survey are allowed sea service only for the time they are actually afloat. No credit is given for service in Revenue and Merchant vessels. In the column "unemployed," is included the time between date of warrant and date of first order from the Department for service.

☞ The attention of officers is particularly called to the Orders and Regulations published in the latter part of the Register.
