## Training Event Reporting

### What is a Training Event?

Training Events are codes used by the Marine Corps Total Force System (MCTFS) to record training and other actions performed by individual Marines. Training Events are defined by a two-digit code and name. **Training Events are recorded with a date in the Basic Training Report (BTR) on Marine OnLine (MOL).**

### How are Training Events Entered and Used?

Training Events record service-level initial and annual training, health assessment and qualification screening. Training Events are recorded via Unit Diary entry or MarineNet course completion. MarineNet completions automatically report to MCTFS within two business days.

### MarineNet Automatically Reports Course Completion for these Training Events

Training Event Code: Name	MarineNet Course Code	MarineNet Course Name
A2: Driver Awareness	DI5101E000	Driving for Life
AB: Anti-Terrorist Annual Training Date	JATLV10000	Joint Anti-Terrorism Level 1
