

# MAGTF OPERATIONS AFLOAT

## Purpose

To educate students on sea-based MAGTF operations through the lens of the Single Battle Concept and ARG/MEU integration using Maneuver Warfare Philosophy and Amphibious Operations Doctrine, Techniques, and Procedures.

## Method

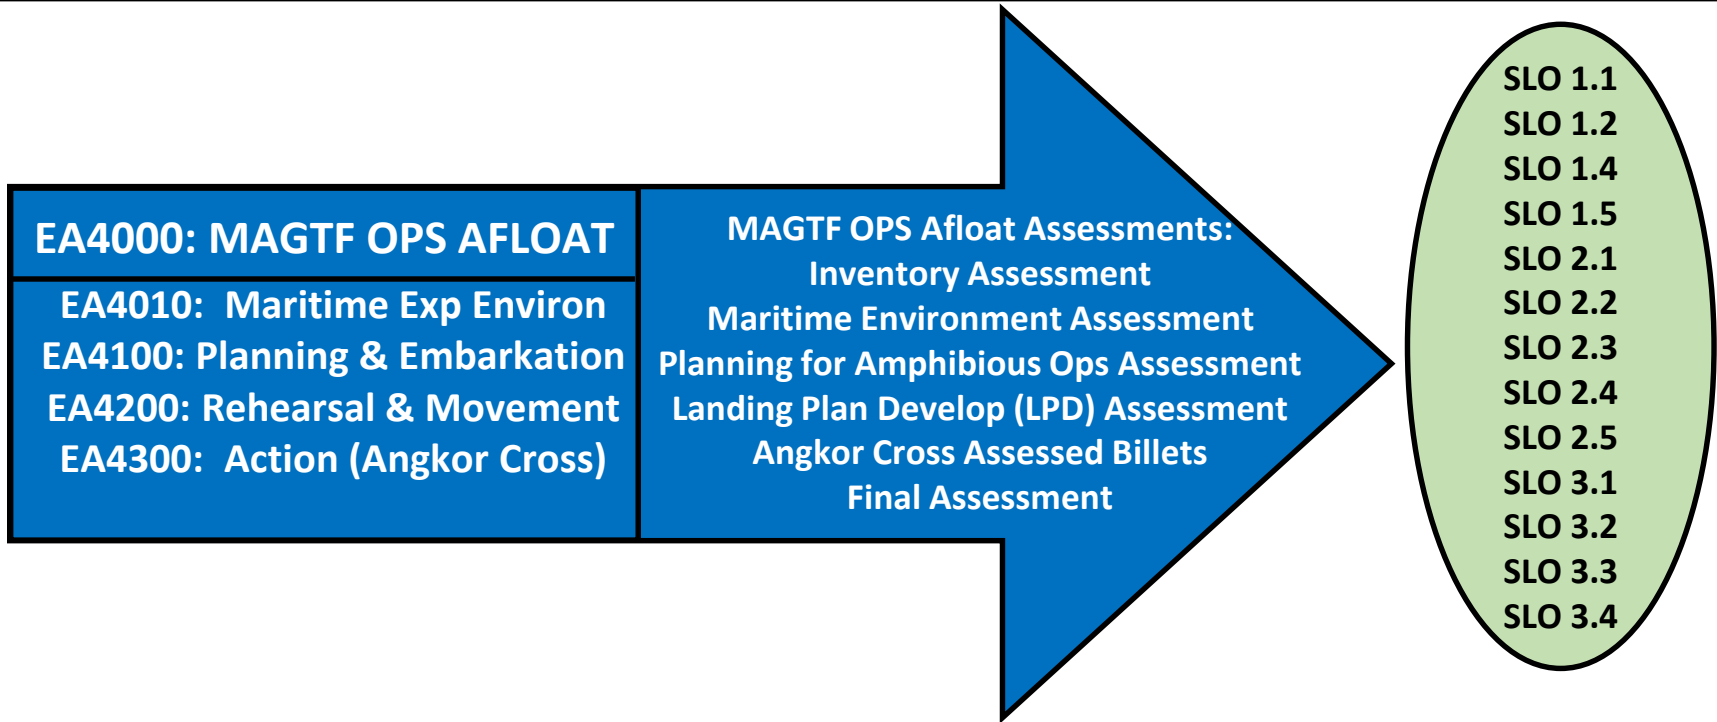

Four instruction blocks focused on Maritime Expeditionary Environment, Planning and Embarkation, Rehearsal and Movement, and Action, which includes a scenario based ARG/MEU Planning Exercise.

## Endstate

Operating within a JIIM environment, EWS graduates will be able to plan for the **doctrinal employment of a combined arms MAGTF**, both ashore and **afloat**, through the use of expeditionary enablers to **execute complex and distributed naval expeditionary operations**.
