## TIME ZONES AND PHONE AREA CODES

Note: In no case do area code numbers cross state boundaries.

## IMPORTANT PHONE NUMBERS

[illegible]

## NEW FIRST AID FOR CHOKING

**For unconscious victim:**

If victim can cough,  
speak, breathe...  
**Do not interfere!**

**If victim cannot cough, speak, breathe, have someone call for help!**

Phone \_\_\_\_\_  
Police, Doctor, Hospital \_\_\_\_\_

and  
**Take Action!**

Repeat above sequence. Continue uninterrupted until advanced life support is available.

If victim becomes unconscious, follow directions 1 through 4.

Repeat above sequence. Continue uninterrupted until advanced life support is available.

Everyone should know how to perform these first aid steps for choking and how to give **mouth-to-mouth** and **cardiopulmonary resuscitation (CPR)**.

**CAUTION:** Abdominal thrusts may cause injury.  
Do not practice on people!

## Automobile and Service Record

Coe John Bayd  
Chief OODL

Dear John,

Many Thanks for your efforts  
in Albany which everyone has  
hailed as our best yet.

Enclosed is our check that  
I hope will keep you in  
new graphs for a week or  
two - at least.

Hope to see you soon  
Warmest regards -

Pat Garvey

7 Nov 83

Dear Colonel Boyd,

Because I find myself thinking  
in your terms, it is already  
clear that your briefings work  
in my case.

Your ideas and your generosity  
made a big impression on me.

I enclose another drop in the  
bucket.

Thanks again,

*Wayne Thompson*

①

## Notes

I

- To form pattern(s) implies the ability to discern or operate in a directed way.
- Without pattern <sup>or inability to form patterns</sup> implies one cannot discern; one cannot operate in a directed way.

II

- Confusion/disorder imply a mixing or intermingling without apparent pattern or design.

III

- indeed
- The Boltzmann equation:  $S = k \ln W$  indicates that entropy ( $S$ ) is proportional to the logarithm of a quantity ( $W$ ) representing the number of microscopic ways in which the macroscopic state, corresponding to  $S$ , can be realized.

Note: Since derivation of equation is based upon the idea that all possibilities are equally likely, this means ( $W$ ) represents equally likely ways a macroscopic state can be realized.

IV

- Now, Boltzmann's expression to confusion/disorder
- In relating III to IV we can say confusion/disorder implies an intermingling or mixing of 2 or more elements, events, happenings etc. without apparent pattern or design.

V

- Pushing the argument further, we can say that if all possibilities are equally likely or uniformly distributed then there is no potential for doing work or operating in a directed way.

and paraphrasing

VII Now recalling, Sun Tzu's notion :- that if one sends reinforcements or prepares everywhere one is everywhere weak -- we can see that preparing everywhere is akin to an equal or uniform distribution; ~~hence~~ we can also see that the idea of being everywhere weak is akin to the idea of not being able to operate in a directed way.

---

~~VII~~  
VI or looking at it differently we can say that a uniform or equal distribution is tantamount to saying that there is no apparent pattern or design

---

VIII • Now, recalling that non-cooperative centers of gravity imply confusion/chaos and inability to grow in a directed way, we can <sup>see that</sup> non-cooperative centers of gravity -- each tending to go in its own direction -- ~~do not make it~~ / hamper the ability to focus, hence make the organism ~~everywhere weak~~ of the organism ~~to adapt~~ & shape and adapt to circumstances. In the sense organism represents an internally or externally of 2 or more elements without apparent pattern or design

T

## T and C

- Definition of S/E/T  
science/engineering/technology
- Definition of all Technology.
- Basic Question? ~~How~~ This is  
what we do VLS a VLS  
SET, How do we go about it.
- For some illumination let's take a  
book at the so-called three period  
~~states~~ of man's enlightenment  
= → Hunting and gathering  
= → Cultivation of plants and  
rise of agriculture  
= → Construction of shelter, technology  
and the industry and the  
industrial evolution

Hunting and gathering

Cultivation of plants etc.

II

- Construction of shelter, toolmaking etc

—  
—  
—  
—

## Conclusions

- Outside himself and his and Society

- Where does this lead us

- At each step man has removed or detached himself further and further away from his environment

## Implications

- Where does this lead us }

- Answer  
Examples: Hays, WWII, Mayaguez  
~~for~~ Modern Farm Centers

- Implications

Memorandum for the Record

On 17 Nov 83 late in the afternoon (around 1700) a meeting Goodwin etc

• Laid-out conspiracy theory of Spring - Boyd that ~~the~~ featured the press to print initially only their side of story.

• Also in some way tied to David Royer and his operations

• Focus upon weapon systems and their value whether complex or simple; Not upon tactics, strategy etc.

• Stated people (vague!) on our side of argument ~~presented~~ presented evidence that reflected by a distorted view -- as we did not give complete picture.

• Yet when we said that ~~we~~ ~~were~~ ~~at~~ ~~our~~ ~~views~~ when we discussed trade-offs that are used in generating a picture of what we are dealing with. Mr Goodwin was ~~uninterested~~ ignored the comments and kept returning to his ~~conspiracy~~ ~~theory~~ vague conspiracy theory and in other words, he already had the concept so why entertain any other information or trade-offs that might disturb that image.

• Claimed we had a free ride by the press

~~also offered Mr Goodwin,~~

- Upon Mr Goodwin's inquiring of what I did or was doing I mentioned POC & He said he had heard of my former work there. I stated the briefing as POC not POM, and that he had an erroneous impression of my presentation. I off
- I offered him the presentation (slides) to correct that impression.

December 29, 1982

Mr. John Boyd  
[REDACTED]

Dear John,

Thanks for returning the call, today.

As I mentioned, the local newspaper folks called yesterday to discuss the possibility of my doing what boils down to being an expose' on operational USAF combat aircraft and missile programs. They were particularly interested in comments I have made in my weekly Armchair Aviator column alluding to the ineffectivity of certain aircraft and missile types.

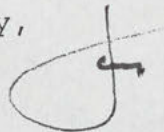

They are willing to pick up all my expenses on this project----if I elect to forge ahead with it. As I told you, my initial reaction was to ask for some time while I checked with my contacts. You, of course, are a primary example of the latter.

If you are interested in helping me, I could see to it that a modest consulting fee was provided. I'll await your response before pursuing this.

Am enclosing a copy of the F-16 book. Would greatly appreciate some critical commentary. The book was unfortunately a bit rushed, due in part to the delays suffered when I was forced to reject Jim Stevenson's manuscript. The latter is a lengthy story unto itself, but suffice it to say that it was an unacceptable writing venture that led to the loss of Jim's friendship.

Let me hear from you when you have a minute. And all the best to you during the coming New Year!

Sincerely,

JAY MILLER, PUBLISHER P. O. BOX 5337
