Dear Col Boyd,

Please find enclosed "Naval Doctrine
Publication 1." Chapter III, "Two
Styles of Warfare," p. 41 gives oblique
reference to the Green Book. I guess
this document is a start
a good one? Hardly.

It is important that at
least some credit, no matter

how oblique it may be, is given
to "the Patterns...." I plan
on referring to your work via
Naval Doctrine Pub 1. Too bad
the CMC and CNO don't have
the time to also drop you a
note thanking you for your
contributions to 20th century
warfighting.

Very Respectfully

Dan Moore
