3 — Raises Question —

- o They were 19th century and ~~20th~~ early 20th century commanders unable to avoid ^{over} a half century of debilitating casualties?

Answer

- o Until the rise of ^{the} infantry tactics, in the latter part of WW I, neither the 19th century nor the early 20th century commanders were able to evolve effective ^{tactical} penetration maneuver that could offset the massive increase in weapon lethality developed during this period. (and the use of tanks by the Allies)

Underlying Insight

If one cannot penetrate and subvert or seize those moral-mental-physical
positions or connections adversary depends upon, one will find it
exceedingly difficult, if not impossible, to collapse adversary's will
to resist.
