PART I RATER RECOMMENDATIONS

A. Promotion to colonel is competitive. Only 50% of the eligibles may be selected. Of that 50%, 15% may be selected for early promotion. Many meet the prerequisites; only the best qualified may be selected. The inflated evaluation of an average officer adversely impacts on the advancement of the truly outstanding officers. Comparing this officer's relative promotion potential with that of his or her contemporaries, firmly shade in the box that best describes this officer's promotion potential.
