The
Essence
of
Winning & Losing

Key Statements

II

- Without Genetic Heritage, Cultural Traditions and Previous Experiences we do not possess an implicit repertoire of psychophysical skills shaped by environment and changes that have been previously experienced.
- Without Analyses and Synthesis, across a variety of domains or across a variety of competing/independent channels of information, we cannot evolve new repertoires to deal with unfamiliar phenomena or unforeseen change.
- Without a many-sided implicit cross-referencing process of projection, empathy, correlation, and rejection (across these many different domains or channels of information) we cannot even do Analyses and Synthesis.
- Without OODA loops we can neither sense, hence observe, thereby collect a variety of information for the above processes, nor decide as well as implement actions in accord with those processes.
or put another way
- Without OODA loops embracing all the above and without the ability to get inside other OODA loops (or other environments) we will find it impossible to comprehend, shape ~~adapt~~ to, and in turn, be shaped by an unfolding, evolving ~~reality~~ reality that is uncertain, everchanging, unpredictable.

We can further clarify these statements and their interconnections by the following sketch

11

Insights

- Note how orientation shapes the way we the way we the way we and in turn is shaped by ^{the} feedback and other phenomena ^{thru} our sensing or observation window.
- Also note how the entire "loop" (not just "orientation") is an ongoing many-sided implicit cross-referencing process of projection, empathy, correlation, and rejection.

Illumination

By pulling all this together, we can see that the Key Statements, OODA Loop Sketch, and related Insights represent an evolving, open-ended, for-from-equilibrium process of Self-Organization, Emergence, and Natural Selection.
