INFORMATION PAPER

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

1. Background. The Assistant Commandant created a Counter-Drug Working Group (CDWG) in March of 1989 to prepare a "think piece" on the future role of the Marine Corps in support of the then unpublished National Drug Strategy. The current and contemplated future counternarcotics initiatives outlined in this paper represent initiatives addressed in the "think piece."

2. Department of Defense, Law Enforcement Agency, and Non-DoD Agency Support

a. Department of Defense (DoD) Support

(1) A lieutenant colonel is currently serving as the ground plans officer on the staff of the DoD Coordinator for Drug Enforcement Policy and Support. A lieutenant colonel is assigned to the Counternarcotics Operations Division (CNOD) in the J-3 on the Joint Staff and is responsible for coordinating DoD support for Host Nations involved in combatting illicit drug production and trafficking.

(2) On 1 April 1990, DoD established Regional Logistic Support Centers at Miami, El Paso, Long Beach, and Buffalo. The Marine Corps has provided a lieutenant colonel to head the Buffalo regional office and one Marine Staff Noncommissioned Officer with a logistics background has been assigned to the Miami, El Paso, and Long Beach offices. These offices provide assistance to Law Enforcement Agencies (LEAs) in procuring DOD equipment and training to support their local counternarcotics efforts.

b. Drug Enforcement Administration (DEA) Support

(1) The Marine Corps provides personnel and training support to the DEA. Currently there are four Marine Officers and two Staff Noncommissioned Officers assigned to the DEA. Additionally, the Marine Corps temporarily provided two officers to assist the DEA in the development of a campaign plan for Operation Snowcap (drug lab eradication operations) and validated the training program for SNOWCAP. The Marine Corps provided a plans officer and an intelligence officer, on a temporary basis, to assist SNOWCAP in analyzing the scope of chemical diversion in South America and formulating a chemical interdiction/control campaign plan.

(2) Pre-deployment training for DEA agents is conducted at MCCDC, Quantico, VA. This training prepares them for their deployments to South America in support of Operation SNOWCAP. This training is conducted on a quarterly basis.

(3) At the request of the Attorney General, the Marine Corps has identified 170 acres of land adjacent to the FBI Academy at MCCDC, Quantico, VA to expand the

FBI Academy to accommodate DEA training.

c. Law Enforcement and Non-DoD Agency Support. The Marine Corps has assigned 18 officers and 8 enlisted personnel to fill counternarcotics billets with the following agencies: Office of National Drug Control Policy (ONDCP), US Coast Guard, US Customs Service, State Department, Immigration and Naturalization Service, and the US Attorney's Office in Washington, DC. These billets represent the Marine Corps' fair share of DoD's personnel support to LEAs and non-DoD Agencies.

3. Unified and Specified Commands' Counternarcotics Support

a. CINCLANT (JTF-4)

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10) from the Second Marine Aircraft Wing have supported JTF-4 by conducting maritime detection and monitoring missions along the Florida coast, in the Gulf of Mexico, and in the Caribbean. On occasion, detachments of OV-10 aircraft have been temporarily deployed to Homestead, AFB, NAS Key West in Florida, and NAS Roosevelt Roads in Puerto Rico.

(b) Caribbean Radar Support. During 1st Qtr FY-90, the Fourth Marine Aircraft Wing provided detection and monitoring support at Georgetown on Great Exuma Island. The TPS-59 radar filled a gap until an aerostat was in place. Second Marine Aircraft Wing has provided detection and monitoring support to JTF-4 from the Turks and Caicos Islands in the Bahamas. Using a TPS-8 Air Force radar, these Marines have contributed to numerous U.S. Customs Service intercepts of drug-trafficking aircraft. This support has been continuous since 1986, when it then supported the Office of the Vice President's National Narcotics Border Interdiction System (NNBIS).

(c) Mobile Training Team (MTT) Support. During September 1989, an MTT was sent to the Bahamas to provide the Royal Bahamas Defense Force with tactical training to enhance their drug interdiction capabilities. A second Bahamian MTT deployed 14 Jun 90 for a period of 30 days.

b. CINCSO

(1) Past Activities

(a) Equipment Support for Colombia. The Marine Corps provided \$5.7 million dollars worth of equipment and ordnance as part of the President's authorization of \$65 million dollars, under section 506(A) of the Foreign Assistance Act, for military equipment to support Colombia's counternarcotics effort. Where possible, the majority of the Marine Corps support was earmarked to support the Colombian Marine Corps.

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

(b) MTT Support. The Colombian Marine Corps (COLMAR) have been given the primary mission of combatting the movement of illicit drugs on the Colombian rivers. As a result of this mission, the Colombian Commandant, Rear Admiral Serrano requested US Marine Corps training assistance in preparing his Marines for this new mission. The US Marine Corps developed three MTTs to assist the COLMAR in recruit/NCO training, ordnance repair, and riverine operations. The ordnance repair MTT was completed 30 May 90, the recruit training/NCO MTT was completed 1 Jun 90, and the riverine MTT was completed 21 Jul 90.

(c) Riverine Support. The Andean Implementation Plan (S) and CINCSO OPLAN 6300 (S) both task the Navy and Marine Corps to provide riverine support to specified South American country counternarcotics efforts. In those South American countries with their own Marine Corps, the mission to conduct riverine operations has been given to that country's Marine Corps. The sixty-five thousand miles of rivers in the Andean Ridge countries alone portray the scope of the problem requiring both Navy and Marine Corps riverine support. The Marine Corps has taken the following initiatives to enhance its riverine capability and provide the necessary support to CINCSO:

1. Developed the capability to deploy language trained MTTs for riverine training in support of the counternarcotics effort in LATAM. One such MTT provided the just completed riverine MTT in Colombia.

2. The Commandant authorized CG MCRDAC to purchase seven River Assault Craft (RAC) for concept validation of the Marine Corps' enhanced riverine capability. These craft provide assault fire support, C3I, and limited logistic/medevac support to a riverine assault force. The craft were delivered to CG LFTCLANT in Little Creek, VA on 6 Aug 90. CG LFTCLANT will conduct training for the RAC platoon crews and provide a test directorate to conduct the concept validation as directed by CG MCRDAC and coordinated with CG FMFLANT. CG MCCDC is developing the riverine operational concept for the validation/evaluation of the RAC integrated into the enhanced riverine capability and CG FMFLANT is providing the personnel to man the RAC Platoon, coordinate crew training with CG LFTCLANT, and participate in the Field Users Evaluation (FUE).

(d) Deployments for Training (DFTs).

1. In response to a request from CINCSO, Co A, 8th Engineer Support Battalion assisted in the construction of a radar site on the north coast of Honduras. The radar site performs a drug interdiction mission as one of several sites monitoring air and sea traffic in the Caribbean Basin Radar Network (CBRN). Work commenced 16 May 90 and was completed 30 Jun 90.

2. II MEF deployed a Tactical Operations Center (TAOC) (-) to Colombia to provide air surveillance radar support. Sixty Marines and associated

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

equipment assisted the Colombian Air Force from 15 Sept-20 Dec 90 in detecting and monitoring aerial drug smuggling activity.

(e) Riverine Support

1. II MEF provided a representative on a USN/USMC survey team in Ecuador to assess requirements for a future riverine MTT.

2. II MEF personnel conducted riverine training with the Peruvian Navy and Marine Corps as part of a joint USN/USMC riverine short duration exercise. The purpose of the short duration exercise is to train and exercise with the Peruvian Navy and Marine commando forces in combined riverine interdiction and assault missions.

3. A joint USN/USMC team conducted combined riverine training with the Guatemalan Navy/Marine Corps. The Marine Corps contingent of one officer and five enlisted personnel were provided by CG MCCDC.

(2) Current Activities. II MEF is currently providing a Captain with logistics background as a member of a joint USA/USMC/USAF site survey team in Bolivia. This team will assess training requirements and conduct a follow-on MTT to train and assist the Bolivian Joint General Staff for Special Force for the Fight Against Narcotics Trafficking (SFFANT) in operations and logistics planning, training management and communications.

(3) Future Activities

(a) At the request of the Peruvian Navy/Marine Corps, a DFT will be conducted at the Iquitos Naval Base. The purpose of the DFT is to conduct combined reconnaissance and intelligence training in a riverine environment. This DFT is currently pending SOUTHCOM/SECDEF approval.

(b) In support of Colombia's purchase of riverine craft, CG MCCDC will deploy a MTT to Puerto Leguizamo to conduct operator and employment training.

(c) The deployment of additional riverine DFTs/MTTs to support counternarcotics efforts in Peru, Colombia, Bolivia and Ecuador, and additional radar support are also being considered in the near future to support SOUTHCOM objectives.

c. CINCFOR (JTF-6)

(1) Past Activities. CINCFOR was assigned the mission of coordinating law enforcement agencies support on the southwest border in an effort to stem the flow of illicit narcotics into the United States. At the CINC's request, the Marine Corps provided a Marine Liaison Officer to Forces Command at Ft. McPherson, GA to assist

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

in their counternarcotics efforts. CINCFOR established JTF-6 at El Paso to carry out his mission. Nineteen billets for Marines were established at JTF-6 in accordance with the approved Joint Manpower Plan and are currently filled. Among these billets are Deputy Commander and Operations Officer. JTF-6 was activated for operations on 2 January 1990 and assumed OPCON of all units deployed for counter-narcotics support to DLEA's along the border.

(a) Initial Southwest Border Training. Joint training with the Border Patrol on the border, now coordinated by JTF-6, was initiated by the Marine Corps in the El Paso, Tucson, Del Rio, and Laredo Border Patrol Sectors. The initial training was conducted by Marines of the I Marine Expeditionary Force (I MEF) and offered the unique opportunity to conduct small unit tactical training in scouting and patrolling, camouflage and concealment, land navigation/map reading, and the selection and manning of observations posts (OP's). The training also had the side benefit of assisting the Border Patrol in observing and reporting smuggler activity in certain areas of the border.

1. A Memorandum of Understanding (MOU) between the Marine Corps and the Immigration and Naturalization Service/ Border Patrol was developed to cover the initial operations. This MOU outlined the parameters of the joint training and surveillance operations concept and was signed by the Commissioner of INS and the Commandant on 11 October 89. The MOU has been superseded by the activation of JTF-6 and is no longer required to provide support along the southwest border.

2. A draft joint training/operations order was developed which documented the agreed upon structure and procedures for the concept. This document became the baseline for all JTF-6 training and operations.

3. The first deployment of Marines to the border occurred in late November 89 when a company (-) from 1st Reconnaissance Battalion teamed up with Border Patrol agents to occupy OPs in the Tucson and El Paso Sectors. The Marines were billeted/messed at Fort Bliss (El Paso) and Davis-Monthan AFB (Tucson). Marines did not engage in search, seizure, apprehension, or pursuit of observed drug smugglers during this training, but they did provide information to the Border Patrol which resulted in some arrests and the seizure of significant amounts of marijuana and cocaine.

4. Fourth Marine Division (USMCR) Marines, augmented by I MEF Surveillance, Reconnaissance, and Intelligence Group (SRIG) elements to include remotely piloted vehicles (RPVs), conducted similar training in the Laredo and Del Rio Border Patrol Sectors from 29 Jan 90 to 2 Mar 90. Their efforts resulted in the arrest of three smugglers and the seizure of large amounts of marijuana.

5. Intelligence Support. CG I MEF assigned an intelligence officer, Captain Bryan Lavender, TAD to the Tucson Border Patrol Sector (11-22 Sep 89) and

UNCLASSIFIED

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

the El Paso Border Patrol Sector (10-20 Oct 89). He was sent to offer intelligence planning assistance and to aid the Sector headquarters in the formal collection, production and dissemination of tactical intelligence. Previously, there was no formal process for the fusion of the information generated from the individual Border Patrol contacts. LtCol Tom Sullivan USMCR was sent TAD to the Tucson Sector 25 March-8 April in a follow-up visit. LtCol Sullivan assisted the Border Patrol with the implementation of Capt Lavender's recommendations.

(b) Sustained Southwest Border Support

1. Both active and reserve Marine units have provided significant support to JTF-6 since its activation. Below is a listing of the support provided to date by Marine Corps units:

<u>TYPE</u>	<u>UNIT</u>	<u>DATES</u>	<u>LOCATION</u>
LP/OP	MCAGCC	2 Apr-31 Aug 90	29 Palms, CA
Engineer	4th FSSG	2-22 Sep 90	Del Rio, TX
LP/OP/Sensor	4th MarDiv	13 Oct-17 Nov 90	Lukeville, AZ
LP/OP/Sensor	4th MarDiv	10-28 Sep 90	Nogales, AZ

2. With the exception of the MCAGCC operation, the above support was originally scheduled to be provided by I MEF. However, the MEF's commitment to Operation Desert Shield precluded its participation and the 4th MarDiv/4th MAW team picked up the commitment and commenced operations as originally scheduled.

(2) Future Activities. During the coming months, the 4th DWT will continue to provide support to JTF-6 operations, as requested. This support will be dependent upon the Marine Corps Reserve commitment to Operation Desert Shield.

d. CINCPAC (JTF-5)

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10 and RF-4B) have been provided in support of JTF-5 and the U.S. Customs Service in their detection and monitoring missions.

(b) MAGTF Support. CG FMFPAC has provided MAGTF support to shipboard law enforcement operations along the coast of California. Named LEO MAGTFs, these operations conducted surveillance of the California coastline for suspected smuggler routes and activity. These operations are conducted aboard US Navy ships and were in support of JTF-5.

(c) 1st MEB units conducted CINCPAC's OPERATION WIPEOUT, a

Hawaiian marijuana eradication effort. The following support was provided:

- 1 Remote Battlefield Surveillance System (REMBASS) in suspected marijuana fields.
- 2 One air traffic control element.
- 3 One intelligence analyst and one liaison officer to DEA.
- 4 Two portable global positioning systems.

(2) Future Activities. Since many of the source countries in the Pacific theater are not accessible to US forces, the III MEF source country counternarcotics detection, monitoring and interdiction effort will focus on Thailand and the Philippines. MTT's will be provided to train the local military and law enforcement officials in counternarcotics missions to include riverine operations if required.

4. Demand-side Reduction Initiatives. The Marine Corps' internal drug abuse program is well known and has been highly successful in reducing the abuse of drugs within our ranks, but now the Corps is reaching beyond "taking care of its own" and is working with community leaders to assist them in their efforts in ridding their neighborhoods of the scourge of illicit drugs.

a. The Assistant Commandant has appointed the Assistant Deputy Chief of Staff for Manpower and Reserve Affairs, Reserve Affairs, to direct Marine Corps demand-side initiatives with a nation-wide focus which reaches beyond the Corps and into the community.

b. In the last year, Marines have been involved in community oriented drug prevention programs which served over 600,000 civilians. These programs include Boy/Girl/Cub Scouts, Brownies, church groups, elementary and high schools, MCJROTC, and prisons, etc. Marine Corps Substance Abuse Counselors are very much involved in the local community and are frequently called upon to give lectures on substance abuse.

c. In order to formalize the Marine Corps' demand-side program, a Marine Corps Order (5355.4) entitled "Marine Corps Community Drug Education and Assistance Program" (MCCDEAP) has been published. This order provides guidance to the field on ways in which the Marine Corps and the individual Marine can be of assistance to the local community and encourages them to become involved in these programs. In coordination with MCCDEAP, we are developing a program for latchkey children (children in self-care) which will focus on both civilian and military children in and around Marine Corps bases and installations. The purpose is to provide professional guidance and keep children occupied with a developmentally appropriate curriculum which will reduce the demand for illegal drugs.

d. The State of Maryland requested assistance in establishing a youth correctional program. The Department of Public Safety and Correctional Services requested

UNCLASSIFIED

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

assistance in preparing "drill instructors" for the initial phase. The request was approved by SECNAV and the Marine Corps Officer Candidate School commenced a 3 week orientation course for the 7 identified instructors on 29 Jan 90. The orientation course included organization, discipline, procedures, conduct of drill and physical training, instruction and practice on conducting inspections and establishing standards for clothing, personnel, and billeting areas, etc.; instruction on stress and harassment; and other applicable instruction and training. Assistance will be provided after this initial training of trainers to help the Department establish their own "train the trainers" course. Five of the original 7 Maryland Corrections Officers completed the training course and graduated on 21 Feb 90.

e. In response to a request from the Los Angeles County Sheriff's Department, the Marine Corps Recruit Depot, San Diego Drill Instructor's School conducted two one-week periods of instruction at the Los Angeles County Sheriff's Department Pitchess Honor Rancho. The focus of this instruction was on teaching drill and ceremonies, team and individual motivation, leadership and self-discipline. The training prepared Sheriff's deputies for providing rehabilitation-oriented training to youthful offenders in Los Angeles County. The training was conducted 25-29 Jun 90 and 10-14 Sept 90.

f. Currently the Marine Corps staffs 80 MCJROTC units at high schools throughout the Nation. We are currently pursuing the establishment of an additional 23 units for a total of 103. It is planned to put these additional units at high schools in inner cities, such as Washington, DC. The benefits provided by establishing positive role models in these schools could have a deterrent effect on the use of drugs by our high school students.

g. On 3 Jan 90, Mr. Sterling Tucker, Director, Drug Control Policy for the District of Columbia, visited the Commandant to solicit Marine Corps support for the District's "NOT ON MY BLOCK" program. The program is designed to recapture the District's neighborhoods from the drug dealers. In order to accomplish this goal, the program will rely heavily on citizen volunteers, as well as religious, civic, and business groups participation. Some aspects of the program include neighborhood watch and cleanup activities, youth education and recreation activities, public relations campaign, and additional police assistance to eliminate the drug dealers. Mr. Tucker requested that the Marine Corps review the program and provide planning assistance to his strategy teams for program implementation. The Marine Corps agreed to review the program and has provided planning assistance as necessary.

h. The Officer Candidate School at Quantico, VA is offering two 3 week rehabilitation-oriented training courses per year for state and local corrections officers. These courses are modeled after the previously conducted training for the Maryland State Corrections Officers. The first course commenced 15 Oct 90 and graduated 2 Nov 90. The second course will be offered 11-29 Mar 91.

5. The Marine Corps has set the pace in the Department of Defense in the

counternarcotics effort and continues to be aggressive in assisting the President in reaching his goal of a drug-free America. The Commandant has recognized that this is a goal which we must attain, and is insisting that Marines of all ranks and in all positions in the chain of command get involved in the counternarcotics effort.

TEAM SPIRIT 91
24 JAN - 23 APR 91

GENERAL

Team Spirit 91 is a JCS-Directed USCINCPAC-Sponsored, United States/Republic of Korea Joint/Combined field training exercise. The exercise takes place in the Western Pacific, focused on the Korean Peninsula and contiguous waters.

PURPOSE

- To demonstrate U.S. resolve to support the Republic of Korea against external aggression while improving U.S./Korean combat readiness and joint/combined interoperability in air, ground, sea, amphibious, and unconventional operations.

- To allow USCINCPAC/USCINCTRANS to plan and execute strategic air and sea movement of U.S. augmenting forces using the joint operation planning and execution system (JOPES) during the deployment planning and execution and the deployment planning phases.

- To allow ROK and U.S. Forces Korea to receive U.S. augmenting and supporting forces, to tactically move forces to battle and sustain forces in the field.

- To enhance command and control in combined/joint operations.

- To allow CINC Combined Forces Command (CFC) and CFC component commanders to train and evaluate the command's capability to execute ROK/U.S. air-land-sea battle doctrine.

INFORMATION PAPER

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

1. **Background.** The Assistant Commandant created a Counter-Drug Working Group (CDWG) in March of 1989 to prepare a "think piece" on the future role of the Marine Corps in support of the then unpublished National Drug Strategy. The current and contemplated future counternarcotics initiatives outlined in this paper represent initiatives addressed in the "think piece."

2. **Department of Defense, Law Enforcement Agency, and Non-DoD Agency Support**

a. **Department of Defense (DoD) Support**

(1) A lieutenant colonel is currently serving as the ground plans officer on the staff of the DoD Coordinator for Drug Enforcement Policy and Support. A lieutenant colonel is assigned to the Counternarcotics Operations Division (CNOD) in the J-3 on the Joint Staff and is responsible for coordinating DoD support for Host Nations involved in combatting illicit drug production and trafficking.

(2) On 1 April 1990, DoD established Regional Logistic Support Centers at Miami, El Paso, Long Beach, and Buffalo. The Marine Corps has provided a lieutenant colonel to head the Buffalo regional office and one Marine Staff Noncommissioned Officer with a logistics background has been assigned to the Miami, El Paso, and Long Beach offices. These offices provide assistance to Law Enforcement Agencies (LEAs) in procuring DOD equipment and training to support their local counternarcotics efforts.

b. **Drug Enforcement Administration (DEA) Support**

(1) The Marine Corps provides personnel and training support to the DEA. Currently there are four Marine Officers and two Staff Noncommissioned Officers assigned to the DEA. Additionally, the Marine Corps temporarily provided two officers to assist the DEA in the development of a campaign plan for Operation Snowcap (drug lab eradication operations) and validated the training program for SNOWCAP. The Marine Corps provided a plans officer and an intelligence officer, on a temporary basis, to assist SNOWCAP in analyzing the scope of chemical diversion in South America and formulating a chemical interdiction/control campaign plan.

(2) Pre-deployment training for DEA agents is conducted at MCCDC, Quantico, VA. This training prepares them for their deployments to South America in support of Operation SNOWCAP. This training is conducted on a quarterly basis.

(3) At the request of the Attorney General, the Marine Corps has identified 170 acres of land adjacent to the FBI Academy at MCCDC, Quantico, VA to expand the

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

FBI Academy to accommodate DEA training.

c. Law Enforcement and Non-DoD Agency Support. The Marine Corps has assigned 18 officers and 8 enlisted personnel to fill counternarcotics billets with the following agencies: Office of National Drug Control Policy (ONDCP), US Coast Guard, US Customs Service, State Department, Immigration and Naturalization Service, and the US Attorney's Office in Washington, DC. These billets represent the Marine Corps' fair share of DoD's personnel support to LEAs and non-DoD Agencies.

3. Unified and Specified Commands' Counternarcotics Support

a. CINCLANT (JTF-4)

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10) from the Second Marine Aircraft Wing have supported JTF-4 by conducting maritime detection and monitoring missions along the Florida coast, in the Gulf of Mexico, and in the Caribbean. On occasion, detachments of OV-10 aircraft have been temporarily deployed to Homestead, AFB, NAS Key West in Florida, and NAS Roosevelt Roads in Puerto Rico.

(b) Caribbean Radar Support. During 1st Qtr FY-90, the Fourth Marine Aircraft Wing provided detection and monitoring support at Georgetown on Great Exuma Island. The TPS-59 radar filled a gap until an aerostat was in place. Second Marine Aircraft Wing has provided detection and monitoring support to JTF-4 from the Turks and Caicos Islands in the Bahamas. Using a TPS-8 Air Force radar, these Marines have contributed to numerous U.S. Customs Service intercepts of drug-trafficking aircraft. This support has been continuous since 1986, when it then supported the Office of the Vice President's National Narcotics Border Interdiction System (NNBIS).

(c) Mobile Training Team (MTT) Support. During September 1989, an MTT was sent to the Bahamas to provide the Royal Bahamas Defense Force with tactical training to enhance their drug interdiction capabilities. A second Bahamian MTT deployed 14 Jun 90 for a period of 30 days.

(2) Future Activities. JTF-4 has requested OV-10 aerial detection and monitoring support from VMO-4, 4th Marine Aircraft Wing. A detachment of VMO-4 OV-10's will deploy to either Grenada or Barbados in the near future.

b. CINCSO

(1) Past Activities

(a) Equipment Support for Colombia. The Marine Corps provided \$5.7

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

million dollars worth of equipment and ordnance as part of the President's authorization of \$65 million dollars, under section 506(A) of the Foreign Assistance Act, for military equipment to support Colombia's counternarcotics effort. Where possible, the majority of the Marine Corps support was earmarked to support the Colombian Marine Corps.

(b) MTT Support. The Colombian Marine Corps (COLMAR) have been given the primary mission of combatting the movement of illicit drugs on the Colombian rivers. As a result of this mission, the Colombian Commandant, Rear Admiral Serrano requested US Marine Corps training assistance in preparing his Marines for this new mission. The US Marine Corps developed three MTTs to assist the COLMAR in recruit/NCO training, ordnance repair, and riverine operations. The ordnance repair MTT was completed 30 May 90, the recruit training/NCO MTT was completed 1 Jun 90, and the riverine MTT was completed 21 Jul 90.

(c) Riverine Support. The Andean Implementation Plan (S) and CINCSO OPLAN 6300 (S) both task the Navy and Marine Corps to provide riverine support to specified South American country counternarcotics efforts. In those South American countries with their own Marine Corps, the mission to conduct riverine operations has been given to that country's Marine Corps. The sixty-five thousand miles of rivers in the Andean Ridge countries alone portray the scope of the problem requiring both Navy and Marine Corps riverine support. The Marine Corps has taken the following initiatives to enhance its riverine capability and provide the necessary support to CINCSO:

1. Developed the capability to deploy language trained MTTs for riverine training in support of the counternarcotics effort in LATAM. One such MTT provided the just completed riverine MTT in Colombia.

2. The Commandant authorized CG MCRDAC to purchase seven River Assault Craft (RAC) for concept validation of the Marine Corps' enhanced riverine capability. These craft provide assault fire support, C3I, and limited logistic/medevac support to a riverine assault force. The craft were delivered to CG LFTCLANT in Little Creek, VA on 6 Aug 90. CG LFTCLANT will conduct training for the RAC platoon crews and provide a test directorate to conduct the concept validation as directed by CG MCRDAC and coordinated with CG FMFLANT. CG MCCDC is developing the riverine operational concept for the validation/evaluation of the RAC integrated into the enhanced riverine capability and CG FMFLANT is providing the personnel to man the RAC Platoon, coordinate crew training with CG LFTCLANT, and participate in the Field Users Evaluation (FUE).

(d) Deployments for Training (DET)s

1. In response to a request from CINCSO, Co A, 8th Engineer Support Battalion assisted in the construction of a radar site on the north coast of Honduras. The radar site performs a drug interdiction mission as one of several sites monitoring air

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

and sea traffic in the Caribbean Basin Radar Network (CBRN). Work commenced 16 May 90 and was completed 30 Jun 90.

2. II MEF deployed a Tactical Operations Center (TAOC) (-) to Colombia to provide air surveillance radar support. Sixty Marines and associated equipment assisted the Colombian Air Force from 15 Sept-20 Dec 90 in detecting and monitoring aerial drug smuggling activity.

(e) Riverine Support

1. II MEF provided a representative on a USN/USMC survey team in Ecuador to assess requirements for a future riverine MTT.

2. II MEF personnel conducted riverine training with the Peruvian Navy and Marine Corps as part of a joint USN/USMC riverine short duration exercise. The purpose of the short duration exercise is to train and exercise with the Peruvian Navy and Marine commando forces in combined riverine interdiction and assault missions.

3. A joint USN/USMC team conducted combined riverine training with the Guatemalan Navy/Marine Corps. The Marine Corps contingent of one officer and five enlisted personnel were provided by CG MCCDC.

(2) Current Activities. II MEF is currently providing a Captain with logistics background as a member of a joint USA/USMC/USAF site survey team in Bolivia. This team will assess training requirements and conduct a follow-on MTT to train and assist the Bolivian Joint General Staff for Special Force for the Fight Against Narcotics Trafficking (SFFANT) in operations and logistics planning, training management and communications.

(3) Future Activities

(a) CG MCCDC will deploy 1 officer and 2 enlisted personnel to Bolivia as part of a joint USN/USMC a counternarcotics riverine deployment for training (DFT). The Marines will conduct small unit and reconnaissance training with Naval Special Warfare Unit (NSWU)-8.

(b) At the request of the Peruvian Navy/Marine Corps, a joint USMC/USN DFT will be conducted at the Iquitos Naval Base. The purpose of the DFT is to conduct combined reconnaissance and intelligence training in a riverine environment. This DFT is currently pending SOUTHCOM/SECDEF approval.

(c) In support of Colombia's purchase of riverine craft, CG MCCDC will deploy a MTT to Puerto Leguizamo to conduct operator and employment training.

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

(d) CG II MEF will deploy two Marine SNCO's as part of a joint USN/USMC riverine MTT to Ecuador during the Spring. The Marines will assist in providing instruction on small unit tactics in a riverine environment.

c. CINCFOR (JTF-6)

(1) Past Activities. CINCFOR was assigned the mission of coordinating law enforcement agencies support on the southwest border in an effort to stem the flow of illicit narcotics into the United States. At the CINC's request, the Marine Corps provided a Marine Liaison Officer to Forces Command at Ft. McPherson, GA to assist in their counternarcotics efforts. CINCFOR established JTF-6 at El Paso to carry out his mission. Nineteen billets for Marines were established at JTF-6 in accordance with the approved Joint Manpower Plan and are currently filled. Among these billets are Deputy Commander and Operations Officer. JTF-6 was activated for operations on 2 January 1990 and assumed OPCON of all units deployed for counter-narcotics support to DLEA's along the border.

(a) Initial Southwest Border Training. Joint training with the Border Patrol on the border, now coordinated by JTF-6, was initiated by the Marine Corps in the El Paso, Tucson, Del Rio, and Laredo Border Patrol Sectors. The initial training was conducted by Marines of the I Marine Expeditionary Force (I MEF) and offered the unique opportunity to conduct small unit tactical training in scouting and patrolling, camouflage and concealment, land navigation/map reading, and the selection and manning of observations posts (OP's). The training also had the side benefit of assisting the Border Patrol in observing and reporting smuggler activity in certain areas of the border.

1. A Memorandum of Understanding (MOU) between the Marine Corps and the Immigration and Naturalization Service/ Border Patrol was developed to cover the initial operations. This MOU outlined the parameters of the joint training and surveillance operations concept and was signed by the Commissioner of INS and the Commandant on 11 October 89. The MOU has been superseded by the activation of JTF-6 and is no longer required to provide support along the southwest border.

2. A draft joint training/operations order was developed which documented the agreed upon structure and procedures for the concept. This document became the baseline for all JTF-6 training and operations.

3. The first deployment of Marines to the border occurred in late November 89 when a company (-) from 1st Reconnaissance Battalion teamed up with Border Patrol agents to occupy OPs in the Tucson and El Paso Sectors. The Marines were billeted/messed at Fort Bliss (El Paso) and Davis-Monthan AFB (Tucson). Marines did not engage in search, seizure, apprehension, or pursuit of observed drug smugglers during this training, but they did provide information to the Border Patrol which resulted in some arrests and the seizure of significant amounts of marijuana and

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

cocaine.

4. Fourth Marine Division (USMCR) Marines, augmented by I MEF Surveillance, Reconnaissance, and Intelligence Group (SRIG) elements to include remotely piloted vehicles (RPVs), conducted similar training in the Laredo and Del Rio Border Patrol Sectors from 29 Jan 90 to 2 Mar 90. Their efforts resulted in the arrest of three smugglers and the seizure of large amounts of marijuana.

5. Intelligence Support. CG I MEF assigned an intelligence officer, Captain Bryan Lavender, TAD to the Tucson Border Patrol Sector (11-22 Sep 89) and the El Paso Border Patrol Sector (10-20 Oct 89). He was sent to offer intelligence planning assistance and to aid the Sector headquarters in the formal collection, production and dissemination of tactical intelligence. Previously, there was no formal process for the fusion of the information generated from the individual Border Patrol contacts. LtCol Tom Sullivan USMCR was sent TAD to the Tucson Sector 25 March-8 April in a follow-up visit. LtCol Sullivan assisted the Border Patrol with the implementation of Capt Lavender's recommendations.

(b) Sustained Southwest Border Support

1. Both active and reserve Marine units have provided significant support to JTF-6 since its activation. Below is a listing of the support provided to date by Marine Corps units:

<u>TYPE</u>	<u>UNIT</u>	<u>DATES</u>	<u>LOCATION</u>
LP/OP Engineer	MCAGCC 4th FSSG	2 Apr-31 Aug 90 2-22 Sep 90	29 Palms, CA Del Rio, TX
LP/OP/Sensor	4th MarDiv	13 Oct-17 Nov 90	Lukeville, AZ
LP/OP/Sensor	4th MarDiv	10-28 Sep 90	Nogales, AZ
LP/OP/GSR	4th MarDiv	7 Dec 90-2 Feb 91	Kingman, AZ
LP/OP	4th MarDiv	7 Dec-20 Dec 90	Kingman, AZ
LP/OP	I MEF	28 Nov-20 Dec 90	Joshua Tree, CA
LP/OP	V MEF	2-16 Feb 91	Joshua Tree, CA

2. With the exception of the MCAGCC operation, the above support was originally scheduled to be provided by I MEF. However, the MEF's commitment to Operation Desert Shield precluded its participation and the 4th MarDiv/4th MAW team picked up the commitment and commenced operations as originally scheduled.

(2) Future Activities. During the coming months, the 4th DWT will continue to provide support to JTF-6 operations, as requested. Until I MEF completes its redeployment from Southwest Asia, V MEF will also provide support to JTF-6.

d. CINCPAC (JTF-5)

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10 and RF-4B) have been provided in support of JTF-5 and the U.S. Customs Service in their detection and monitoring missions.

(b) MAGTF Support. CG FMFPAC has provided MAGTF support to shipboard law enforcement operations along the coast of California. Named LEO MAGTFs, these operations conducted surveillance of the California coastline for suspected smuggler routes and activity. These operations are conducted aboard US Navy ships and were in support of JTF-5.

(c) 1st MEB units conducted CINCPAC's OPERATION WIPEOUT, a Hawaiian marijuana eradication effort. The following support was provided:

- 1 Remote Battlefield Surveillance System (REMBASS) in suspected marijuana fields.
- 2 One air traffic control element.
- 3 One intelligence analyst and one liaison officer to DEA.
- 4 Two portable global positioning systems.

(2) Future Activities. Since many of the source countries in the Pacific theater are not accessible to US forces, the III MEF source country counternarcotics detection, monitoring and interdiction effort will focus on Thailand and the Philippines. MTT's will be provided to train the local military and law enforcement officials in counternarcotics missions to include riverine operations if required.

4. Demand-side Reduction Initiatives. The Marine Corps' internal drug abuse program is well known and has been highly successful in reducing the abuse of drugs within our ranks, but now the Corps is reaching beyond "taking care of its own" and is working with community leaders to assist them in their efforts in ridding their neighborhoods of the scourge of illicit drugs.

a. The Assistant Commandant has appointed the Assistant Deputy Chief of Staff for Manpower and Reserve Affairs, Reserve Affairs, to direct Marine Corps demand-side initiatives with a nation-wide focus which reaches beyond the Corps and into the community.

b. In the last year, Marines have been involved in community oriented drug prevention programs which served over 600,000 civilians. These programs include Boy/Girl/Cub Scouts, Brownies, church groups, elementary and high schools, MCJROTC, and prisons, etc. Marine Corps Substance Abuse Counselors are very much involved in the local community and are frequently called upon to give lectures on substance abuse.

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

c. In order to formalize the Marine Corps' demand-side program, a Marine Corps Order (5355.4) entitled "Marine Corps Community Drug Education and Assistance Program" (MCCDEAP) has been published. This order provides guidance to the field on ways in which the Marine Corps and the individual Marine can be of assistance to the local community and encourages them to become involved in these programs. In coordination with MCCDEAP, we are developing a program for latchkey children (children in self-care) which will focus on both civilian and military children in and around Marine Corps bases and installations. The purpose is to provide professional guidance and keep children occupied with a developmentally appropriate curriculum which will reduce the demand for illegal drugs.

d. The State of Maryland requested assistance in establishing a youth correctional program. The Department of Public Safety and Correctional Services requested assistance in preparing "drill instructors" for the initial phase. The request was approved by SECNAV and the Marine Corps Officer Candidate School commenced a 3 week orientation course for the 7 identified instructors on 29 Jan 90. The orientation course included organization, discipline, procedures, conduct of drill and physical training, instruction and practice on conducting inspections and establishing standards for clothing, personnel, and billeting areas, etc.; instruction on stress and harassment; and other applicable instruction and training. Assistance will be provided after this initial training of trainers to help the Department establish their own "train the trainers" course. Five of the original 7 Maryland Corrections Officers completed the training course and graduated on 21 Feb 90.

e. In response to a request from the Los Angeles County Sheriff's Department, the Marine Corps Recruit Depot, San Diego Drill Instructor's School conducted two one-week periods of instruction at the Los Angeles County Sheriff's Department Pitchess Honor Rancho. The focus of this instruction was on teaching drill and ceremonies, team and individual motivation, leadership and self-discipline. The training prepared Sheriff's deputies for providing rehabilitation-oriented training to youthful offenders in Los Angeles County. The training was conducted 25-29 Jun 90 and 10-14 Sept 90.

f. Currently the Marine Corps staffs 80 MCJROTC units at high schools throughout the Nation. We are currently pursuing the establishment of an additional 23 units for a total of 103. It is planned to put these additional units at high schools in inner cities, such as Washington, DC. The benefits provided by establishing positive role models in these schools could have a deterrent effect on the use of drugs by our high school students.

g. On 3 Jan 90, Mr. Sterling Tucker, Director, Drug Control Policy for the District of Columbia, visited the Commandant to solicit Marine Corps support for the District's "NOT ON MY BLOCK" program. The program is designed to recapture the District's neighborhoods from the drug dealers. In order to accomplish this goal, the program will rely heavily on citizen volunteers, as well as religious, civic, and business groups

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

participation. Some aspects of the program include neighborhood watch and cleanup activities, youth education and recreation activities, public relations campaign, and additional police assistance to eliminate the drug dealers. Mr. Tucker requested that the Marine Corps review the program and provide planning assistance to his strategy teams for program implementation. The Marine Corps agreed to review the program and has provided planning assistance as necessary.

h. The Officer Candidate School at Quantico, VA is offering two 3 week rehabilitation-oriented training courses per year for state and local corrections officers. These courses are modeled after the previously conducted training for the Maryland State Corrections Officers. The first course commenced 15 Oct 90 and graduated 2 Nov 90. The second course will be offered 11-29 Mar 91.

5. The Marine Corps has set the pace in the Department of Defense in the counternarcotics effort and continues to be aggressive in assisting the President in reaching his goal of a drug-free America. The Commandant has recognized that this is a goal which we must attain, and is insisting that Marines of all ranks and in all positions in the chain of command get involved in the counternarcotics effort.

EXERCISES

TEAM SPIRIT 91
24 JAN - 23 APR 91

GENERAL

Team Spirit 91 is a JCS-Directed USCINCPAC-Sponsored, United States/Republic of Korea Joint/Combined field training exercise. The exercise takes place in the Western Pacific, focused on the Korean Peninsula and contiguous waters.

PURPOSE

- To demonstrate U.S. resolve to support the Republic of Korea against external aggression while improving U.S./Korean combat readiness and joint/combined interoperability in air, ground, sea, amphibious, and unconventional operations.
- To allow USCINCPAC/USCINTRANS to plan and execute strategic air and sea movement of U.S. augmenting forces using the joint operation planning and execution system (JOPES) during the deployment planning and execution and the deployment planning phases.
- To allow ROK and U.S. Forces Korea to receive U.S. augmenting and supporting forces, to tactically move forces to battle and sustain forces in the field.
- To enhance command and control in combined/joint operations.
- To allow CINC Combined Forces Command (CFC) and CFC component commanders to train and evaluate the command's capability to execute ROK/U.S. air-land-sea battle doctrine.

INFORMATION PAPER

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

1. **Background.** The Assistant Commandant created a Counter-Drug Working Group (CDWG) in March of 1989 to prepare a "think piece" on the future role of the Marine Corps in support of the then unpublished National Drug Strategy. The current and contemplated future counternarcotics initiatives outlined in this paper represent initiatives addressed in the "think piece."

2. **Department of Defense, Law Enforcement Agency, and Non-DoD Agency Support**

a. **Department of Defense (DoD) Support**

(1) A lieutenant colonel is currently serving as the ground plans officer on the staff of the DoD Coordinator for Drug Enforcement Policy and Support. A lieutenant colonel is assigned to the Counternarcotics Operations Division (CNOD) in the J-3 on the Joint Staff and is responsible for coordinating DoD support for Host Nations involved in combatting illicit drug production and trafficking.

(2) On 1 April 1990, DoD established Regional Logistic Support Centers at Miami, El Paso, Long Beach, and Buffalo. The Marine Corps has provided a lieutenant colonel to head the Buffalo regional office and one Marine Staff Noncommissioned Officer with a logistics background has been assigned to the Miami, El Paso, and Long Beach offices. These offices provide assistance to Law Enforcement Agencies (LEAs) in procuring DOD equipment and training to support their local counternarcotics efforts.

b. **Drug Enforcement Administration (DEA) Support**

(1) The Marine Corps provides personnel and training support to the DEA. Currently there are four Marine Officers and two Staff Noncommissioned Officers assigned to the DEA. Additionally, the Marine Corps temporarily provided two officers to assist the DEA in the development of a campaign plan for Operation Snowcap (drug lab eradication operations) and validated the training program for SNOWCAP. The Marine Corps provided a plans officer and an intelligence officer, on a temporary basis, to assist SNOWCAP in analyzing the scope of chemical diversion in South America and formulating a chemical interdiction/control campaign plan.

(2) Pre-deployment training for DEA agents is conducted at MCCDC, Quantico, VA. This training prepares them for their deployments to South America in support of Operation SNOWCAP. This training is conducted on a quarterly basis.

(3) At the request of the Attorney General, the Marine Corps has identified 170 acres of land adjacent to the FBI Academy at MCCDC, Quantico, VA to expand the

MARINE CORPS COUNTERNARCOTICS UPDATE

K-1

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

FBI Academy to accommodate DEA training.

c. Law Enforcement and Non-DoD Agency Support. The Marine Corps has assigned 18 officers and 8 enlisted personnel to fill counternarcotics billets with the following agencies: Office of National Drug Control Policy (ONDCP), US Coast Guard, US Customs Service, State Department, Immigration and Naturalization Service, and the US Attorney's Office in Washington, DC. These billets represent the Marine Corps' fair share of DoD's personnel support to LEAs and non-DoD Agencies.

3. Unified and Specified Commands' Counternarcotics Support

a. CINCLANT (JTF-4)

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10) from the Second Marine Aircraft Wing have supported JTF-4 by conducting maritime detection and monitoring missions along the Florida coast, in the Gulf of Mexico, and in the Caribbean. On occasion, detachments of OV-10 aircraft have been temporarily deployed to Homestead, AFB, NAS Key West in Florida, and NAS Roosevelt Roads in Puerto Rico.

(b) Caribbean Radar Support. During 1st Qtr FY-90, the Fourth Marine Aircraft Wing provided detection and monitoring support at Georgetown on Great Exuma Island. The TPS-59 radar filled a gap until an aerostat was in place. Second Marine Aircraft Wing has provided detection and monitoring support to JTF-4 from the Turks and Caicos Islands in the Bahamas. Using a TPS-8 Air Force radar, these Marines have contributed to numerous U.S. Customs Service intercepts of drug-trafficking aircraft. This support has been continuous since 1986, when it then supported the Office of the Vice President's National Narcotics Border Interdiction System (NNBIS).

(c) Mobile Training Team (MTT) Support. During September 1989, an MTT was sent to the Bahamas to provide the Royal Bahamas Defense Force with tactical training to enhance their drug interdiction capabilities. A second Bahamian MTT deployed 14 Jun 90 for a period of 30 days.

b. CINCSO

(1) Past Activities

(a) Equipment Support for Colombia. The Marine Corps provided \$5.7 million dollars worth of equipment and ordnance as part of the President's authorization of \$65 million dollars, under section 506(A) of the Foreign Assistance Act, for military equipment to support Colombia's counternarcotics effort. Where possible, the majority of the Marine Corps support was earmarked to support the Colombian Marine Corps.

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

(b) MTT Support. The Colombian Marine Corps (COLMAR) have been given the primary mission of combatting the movement of illicit drugs on the Colombian rivers. As a result of this mission, the Colombian Commandant, Rear Admiral Serrano requested US Marine Corps training assistance in preparing his Marines for this new mission. The US Marine Corps developed three MTTs to assist the COLMAR in recruit/NCO training, ordnance repair, and riverine operations. The ordnance repair MTT was completed 30 May 90, the recruit training/NCO MTT was completed 1 Jun 90, and the riverine MTT was completed 21 Jul 90.

(c) Riverine Support. The Andean Implementation Plan (S) and CINCSO OPLAN 6300 (S) both task the Navy and Marine Corps to provide riverine support to specified South American country counternarcotics efforts. In those South American countries with their own Marine Corps, the mission to conduct riverine operations has been given to that country's Marine Corps. The sixty-five thousand miles of rivers in the Andean Ridge countries alone portray the scope of the problem requiring both Navy and Marine Corps riverine support. The Marine Corps has taken the following initiatives to enhance its riverine capability and provide the necessary support to CINCSO:

1. Developed the capability to deploy language trained MTTs for riverine training in support of the counternarcotics effort in LATAM. One such MTT provided the just completed riverine MTT in Colombia.

2. The Commandant authorized CG MCRDAC to purchase seven River Assault Craft (RAC) for concept validation of the Marine Corps' enhanced riverine capability. These craft provide assault fire support, C3I, and limited logistic/medevac support to a riverine assault force. The craft were delivered to CG LFTCLANT in Little Creek, VA on 6 Aug 90. CG LFTCLANT will conduct training for the RAC platoon crews and provide a test directorate to conduct the concept validation as directed by CG MCRDAC and coordinated with CG FMFLANT. CG MCCDC is developing the riverine operational concept for the validation/evaluation of the RAC integrated into the enhanced riverine capability and CG FMFLANT is providing the personnel to man the RAC Platoon, coordinate crew training with CG LFTCLANT, and participate in the Field Users Evaluation (FUE).

(d) Deployments for Training (DFTs).

1. In response to a request from CINCSO, Co A, 8th Engineer Support Battalion assisted in the construction of a radar site on the north coast of Honduras. The radar site performs a drug interdiction mission as one of several sites monitoring air and sea traffic in the Caribbean Basin Radar Network (CBRN). Work commenced 16 May 90 and was completed 30 Jun 90.

2. II MEF deployed a Tactical Operations Center (TAOC) (-) to Colombia to provide air surveillance radar support. Sixty Marines and associated

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

equipment assisted the Colombian Air Force from 15 Sept-20 Dec 90 in detecting and monitoring aerial drug smuggling activity.

(e) Riverine Support

1. II MEF provided a representative on a USN/USMC survey team in Ecuador to assess requirements for a future riverine MTT.

2. II MEF personnel conducted riverine training with the Peruvian Navy and Marine Corps as part of a joint USN/USMC riverine short duration exercise. The purpose of the short duration exercise is to train and exercise with the Peruvian Navy and Marine commando forces in combined riverine interdiction and assault missions.

3. A joint USN/USMC team conducted combined riverine training with the Guatemalan Navy/Marine Corps. The Marine Corps contingent of one officer and five enlisted personnel were provided by CG MCCDC.

(2) Current Activities. II MEF is currently providing a Captain with logistics background as a member of a joint USA/USMC/USAF site survey team in Bolivia. This team will assess training requirements and conduct a follow-on MTT to train and assist the Bolivian Joint General Staff for Special Force for the Fight Against Narcotics Trafficking (SFFANT) in operations and logistics planning, training management and communications.

(3) Future Activities

(a) At the request of the Peruvian Navy/Marine Corps, a DFT will be conducted at the Iquitos Naval Base. The purpose of the DFT is to conduct combined reconnaissance and intelligence training in a riverine environment. This DFT is currently pending SOUTHCOM/SECDEF approval.

(b) In support of Colombia's purchase of riverine craft, CG MCCDC will deploy a MTT to Puerto Leguizamo to conduct operator and employment training.

(c) The deployment of additional riverine DFTs/MTTs to support counternarcotics efforts in Peru, Colombia, Bolivia and Ecuador, and additional radar support are also being considered in the near future to support SOUTHCOM objectives.

c. CINCFOR (JTF-6)

(1) Past Activities. CINCFOR was assigned the mission of coordinating law enforcement agencies support on the southwest border in an effort to stem the flow of illicit narcotics into the United States. At the CINC's request, the Marine Corps provided a Marine Liaison Officer to Forces Command at Ft. McPherson, GA to assist

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

in their counternarcotics efforts. CINCFOR established JTF-6 at El Paso to carry out his mission. Nineteen billets for Marines were established at JTF-6 in accordance with the approved Joint Manpower Plan and are currently filled. Among these billets are Deputy Commander and Operations Officer. JTF-6 was activated for operations on 2 January 1990 and assumed OPCON of all units deployed for counter-narcotics support to DLEA's along the border.

(a) Initial Southwest Border Training. Joint training with the Border Patrol on the border, now coordinated by JTF-6, was initiated by the Marine Corps in the El Paso, Tucson, Del Rio, and Laredo Border Patrol Sectors. The initial training was conducted by Marines of the I Marine Expeditionary Force (I MEF) and offered the unique opportunity to conduct small unit tactical training in scouting and patrolling, camouflage and concealment, land navigation/map reading, and the selection and manning of observations posts (OP's). The training also had the side benefit of assisting the Border Patrol in observing and reporting smuggler activity in certain areas of the border.

1. A Memorandum of Understanding (MOU) between the Marine Corps and the Immigration and Naturalization Service/ Border Patrol was developed to cover the initial operations. This MOU outlined the parameters of the joint training and surveillance operations concept and was signed by the Commissioner of INS and the Commandant on 11 October 89. The MOU has been superseded by the activation of JTF-6 and is no longer required to provide support along the southwest border.

2. A draft joint training/operations order was developed which documented the agreed upon structure and procedures for the concept. This document became the baseline for all JTF-6 training and operations.

3. The first deployment of Marines to the border occurred in late November 89 when a company (-) from 1st Reconnaissance Battalion teamed up with Border Patrol agents to occupy OPs in the Tucson and El Paso Sectors. The Marines were billeted/messed at Fort Bliss (El Paso) and Davis-Monthan AFB (Tucson). Marines did not engage in search, seizure, apprehension, or pursuit of observed drug smugglers during this training, but they did provide information to the Border Patrol which resulted in some arrests and the seizure of significant amounts of marijuana and cocaine.

4. Fourth Marine Division (USMCR) Marines, augmented by I MEF Surveillance, Reconnaissance, and Intelligence Group (SRIG) elements to include remotely piloted vehicles (RPVs), conducted similar training in the Laredo and Del Rio Border Patrol Sectors from 29 Jan 90 to 2 Mar 90. Their efforts resulted in the arrest of three smugglers and the seizure of large amounts of marijuana.

5. Intelligence Support. CG I MEF assigned an intelligence officer, Captain Bryan Lavender, TAD to the Tucson Border Patrol Sector (11-22 Sep 89) and

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

the El Paso Border Patrol Sector (10-20 Oct 89). He was sent to offer intelligence planning assistance and to aid the Sector headquarters in the formal collection, production and dissemination of tactical intelligence. Previously, there was no formal process for the fusion of the information generated from the individual Border Patrol contacts. LtCol Tom Sullivan USMCR was sent TAD to the Tucson Sector 25 March-8 April in a follow-up visit. LtCol Sullivan assisted the Border Patrol with the implementation of Capt Lavender's recommendations.

(b) Sustained Southwest Border Support

1. Both active and reserve Marine units have provided significant support to JTF-6 since its activation. Below is a listing of the support provided to date by Marine Corps units:

2. With the exception of the MCAGCC operation, the above support was originally scheduled to be provided by I MEF. However, the MEF's commitment to Operation Desert Shield precluded its participation and the 4th MarDiv/4th MAW team picked up the commitment and commenced operations as originally scheduled.

(2) Future Activities. During the coming months, the 4th DWT will continue to provide support to JTF-6 operations, as requested. This support will be dependent upon the Marine Corps Reserve commitment to Operation Desert Shield.

d. CINCPAC (JTF-5)

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10 and RF-4B) have been provided in support of JTF-5 and the U.S. Customs Service in their detection and monitoring missions.

(b) MAGTF Support. CG FMFPAC has provided MAGTF support to shipboard law enforcement operations along the coast of California. Named LEO MAGTFs, these operations conducted surveillance of the California coastline for suspected smuggler routes and activity. These operations are conducted aboard US Navy ships and were in support of JTF-5.

(c) 1st MEB units conducted CINCPAC's OPERATION WIPEOUT, a

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

Hawaiian marijuana eradication effort. The following support was provided:

- 1 Remote Battlefield Surveillance System (REMBASS) in suspected marijuana fields.
- 2 One air traffic control element.
- 3 One intelligence analyst and one liaison officer to DEA.
- 4 Two portable global positioning systems.

(2) Future Activities. Since many of the source countries in the Pacific theater are not accessible to US forces, the III MEF source country counternarcotics detection, monitoring and interdiction effort will focus on Thailand and the Philippines. MTT's will be provided to train the local military and law enforcement officials in counternarcotics missions to include riverine operations if required.

4. Demand-side Reduction Initiatives. The Marine Corps' internal drug abuse program is well known and has been highly successful in reducing the abuse of drugs within our ranks, but now the Corps is reaching beyond "taking care of its own" and is working with community leaders to assist them in their efforts in ridding their neighborhoods of the scourge of illicit drugs.

a. The Assistant Commandant has appointed the Assistant Deputy Chief of Staff for Manpower and Reserve Affairs, Reserve Affairs, to direct Marine Corps demand-side initiatives with a nation-wide focus which reaches beyond the Corps and into the community.

b. In the last year, Marines have been involved in community oriented drug prevention programs which served over 600,000 civilians. These programs include Boy/Girl/Cub Scouts, Brownies, church groups, elementary and high schools, MCJROTC, and prisons, etc. Marine Corps Substance Abuse Counselors are very much involved in the local community and are frequently called upon to give lectures on substance abuse.

c. In order to formalize the Marine Corps' demand-side program, a Marine Corps Order (5355.4) entitled "Marine Corps Community Drug Education and Assistance Program" (MCCDEAP) has been published. This order provides guidance to the field on ways in which the Marine Corps and the individual Marine can be of assistance to the local community and encourages them to become involved in these programs. In coordination with MCCDEAP, we are developing a program for latchkey children (children in self-care) which will focus on both civilian and military children in and around Marine Corps bases and installations. The purpose is to provide professional guidance and keep children occupied with a developmentally appropriate curriculum which will reduce the demand for illegal drugs.

d. The State of Maryland requested assistance in establishing a youth correctional program. The Department of Public Safety and Correctional Services requested

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

assistance in preparing "drill instructors" for the initial phase. The request was approved by SECNAV and the Marine Corps Officer Candidate School commenced a 3 week orientation course for the 7 identified instructors on 29 Jan 90. The orientation course included organization, discipline, procedures, conduct of drill and physical training, instruction and practice on conducting inspections and establishing standards for clothing, personnel, and billeting areas, etc.; instruction on stress and harassment; and other applicable instruction and training. Assistance will be provided after this initial training of trainers to help the Department establish their own "train the trainers" course. Five of the original 7 Maryland Corrections Officers completed the training course and graduated on 21 Feb 90.

e. In response to a request from the Los Angeles County Sheriff's Department, the Marine Corps Recruit Depot, San Diego Drill Instructor's School conducted two one-week periods of instruction at the Los Angeles County Sheriff's Department Pitchess Honor Rancho. The focus of this instruction was on teaching drill and ceremonies, team and individual motivation, leadership and self-discipline. The training prepared Sheriff's deputies for providing rehabilitation-oriented training to youthful offenders in Los Angeles County. The training was conducted 25-29 Jun 90 and 10-14 Sept 90.

f. Currently the Marine Corps staffs 80 MCJROTC units at high schools throughout the Nation. We are currently pursuing the establishment of an additional 23 units for a total of 103. It is planned to put these additional units at high schools in inner cities, such as Washington, DC. The benefits provided by establishing positive role models in these schools could have a deterrent effect on the use of drugs by our high school students.

g. On 3 Jan 90, Mr. Sterling Tucker, Director, Drug Control Policy for the District of Columbia, visited the Commandant to solicit Marine Corps support for the District's "NOT ON MY BLOCK" program. The program is designed to recapture the District's neighborhoods from the drug dealers. In order to accomplish this goal, the program will rely heavily on citizen volunteers, as well as religious, civic, and business groups participation. Some aspects of the program include neighborhood watch and cleanup activities, youth education and recreation activities, public relations campaign, and additional police assistance to eliminate the drug dealers. Mr. Tucker requested that the Marine Corps review the program and provide planning assistance to his strategy teams for program implementation. The Marine Corps agreed to review the program and has provided planning assistance as necessary.

h. The Officer Candidate School at Quantico, VA is offering two 3 week rehabilitation-oriented training courses per year for state and local corrections officers. These courses are modeled after the previously conducted training for the Maryland State Corrections Officers. The first course commenced 15 Oct 90 and graduated 2 Nov 90. The second course will be offered 11-29 Mar 91.

5. The Marine Corps has set the pace in the Department of Defense in the

counternarcotics effort and continues to be aggressive in assisting the President in reaching his goal of a drug-free America. The Commandant has recognized that this is a goal which we must attain, and is insisting that Marines of all ranks and in all positions in the chain of command get involved in the counternarcotics effort.

INFORMATION PAPER

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

1. **Background.** The Assistant Commandant created a Counter-Drug Working Group (CDWG) in March of 1989 to prepare a "think piece" on the future role of the Marine Corps in support of the then unpublished National Drug Strategy. The current and contemplated future counternarcotics initiatives outlined in this paper represent initiatives addressed in the "think piece."

2. **Department of Defense, Law Enforcement Agency, and Non-DoD Agency Support**

a. **Department of Defense (DoD) Support**

(1) A lieutenant colonel is currently serving as the ground plans officer on the staff of the DoD Coordinator for Drug Enforcement Policy and Support. A lieutenant colonel is assigned to the Counternarcotics Operations Division (CNOD) in the J-3 on the Joint Staff and is responsible for coordinating DoD support for Host Nations involved in combatting illicit drug production and trafficking.

(2) On 1 April 1990, DoD established Regional Logistic Support Centers at Miami, El Paso, Long Beach, and Buffalo. The Marine Corps has provided a lieutenant colonel to head the Buffalo regional office and one Marine Staff Noncommissioned Officer with a logistics background has been assigned to the Miami, El Paso, and Long Beach offices. These offices provide assistance to Law Enforcement Agencies (LEAs) in procuring DOD equipment and training to support their local counternarcotics efforts.

b. **Drug Enforcement Administration (DEA) Support**

(1) The Marine Corps provides personnel and training support to the DEA. Currently there are four Marine Officers and two Staff Noncommissioned Officers assigned to the DEA. Additionally, the Marine Corps temporarily provided two officers to assist the DEA in the development of a campaign plan for Operation Snowcap (drug lab eradication operations) and validated the training program for SNOWCAP. The Marine Corps provided a plans officer and an intelligence officer, on a temporary basis, to assist SNOWCAP in analyzing the scope of chemical diversion in South America and formulating a chemical interdiction/control campaign plan.

(2) Pre-deployment training for DEA agents is conducted at MCCDC, Quantico, VA. This training prepares them for their deployments to South America in support of Operation SNOWCAP. This training is conducted on a quarterly basis.

(3) At the request of the Attorney General, the Marine Corps has identified 170 acres of land adjacent to the FBI Academy at MCCDC, Quantico, VA to expand the

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

FBI Academy to accommodate DEA training.

c. Law Enforcement and Non-DoD Agency Support. The Marine Corps has assigned 18 officers and 8 enlisted personnel to fill counternarcotics billets with the following agencies: Office of National Drug Control Policy (ONDCP), US Coast Guard, US Customs Service, State Department, Immigration and Naturalization Service, and the US Attorney's Office in Washington, DC. These billets represent the Marine Corps' fair share of DoD's personnel support to LEAs and non-DoD Agencies.

3. Unified and Specified Commands' Counternarcotics Support

a. CINCLANT (JTF-4)

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10) from the Second Marine Aircraft Wing have supported JTF-4 by conducting maritime detection and monitoring missions along the Florida coast, in the Gulf of Mexico, and in the Caribbean. On occasion, detachments of OV-10 aircraft have been temporarily deployed to Homestead, AFB, NAS Key West in Florida, and NAS Roosevelt Roads in Puerto Rico.

(b) Caribbean Radar Support. During 1st Qtr FY-90, the Fourth Marine Aircraft Wing provided detection and monitoring support at Georgetown on Great Exuma Island. The TPS-59 radar filled a gap until an aerostat was in place. Second Marine Aircraft Wing has provided detection and monitoring support to JTF-4 from the Turks and Caicos Islands in the Bahamas. Using a TPS-8 Air Force radar, these Marines have contributed to numerous U.S. Customs Service intercepts of drug-trafficking aircraft. This support has been continuous since 1986, when it then supported the Office of the Vice President's National Narcotics Border Interdiction System (NNBIS).

(c) Mobile Training Team (MTT) Support. During September 1989, an MTT was sent to the Bahamas to provide the Royal Bahamas Defense Force with tactical training to enhance their drug interdiction capabilities. A second Bahamian MTT deployed 14 Jun 90 for a period of 30 days.

(2) Future Activities. JTF-4 has requested OV-10 aerial detection and monitoring support from VMO-4, 4th Marine Aircraft Wing. A detachment of VMO-4 OV-10's will deploy to either Grenada or Barbados in the near future.

b. CINCSO

(1) Past Activities

(a) Equipment Support for Colombia. The Marine Corps provided \$5.7

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

million dollars worth of equipment and ordnance as part of the President's authorization of \$65 million dollars, under section 506(A) of the Foreign Assistance Act, for military equipment to support Colombia's counternarcotics effort. Where possible, the majority of the Marine Corps support was earmarked to support the Colombian Marine Corps.

(b) MTT Support. The Colombian Marine Corps (COLMAR) have been given the primary mission of combatting the movement of illicit drugs on the Colombian rivers. As a result of this mission, the Colombian Commandant, Rear Admiral Serrano requested US Marine Corps training assistance in preparing his Marines for this new mission. The US Marine Corps developed three MTTs to assist the COLMAR in recruit/NCO training, ordnance repair, and riverine operations. The ordnance repair MTT was completed 30 May 90, the recruit training/NCO MTT was completed 1 Jun 90, and the riverine MTT was completed 21 Jul 90.

(c) Riverine Support. The Andean Implementation Plan (S) and CINCSO OPLAN 6300 (S) both task the Navy and Marine Corps to provide riverine support to specified South American country counternarcotics efforts. In those South American countries with their own Marine Corps, the mission to conduct riverine operations has been given to that country's Marine Corps. The sixty-five thousand miles of rivers in the Andean Ridge countries alone portray the scope of the problem requiring both Navy and Marine Corps riverine support. The Marine Corps has taken the following initiatives to enhance its riverine capability and provide the necessary support to CINCSO:

1. Developed the capability to deploy language trained MTTs for riverine training in support of the counternarcotics effort in LATAM. One such MTT provided the just completed riverine MTT in Colombia.

2. The Commandant authorized CG MCRDAC to purchase seven River Assault Craft (RAC) for concept validation of the Marine Corps' enhanced riverine capability. These craft provide assault fire support, C3I, and limited logistic/medevac support to a riverine assault force. The craft were delivered to CG LFTCLANT in Little Creek, VA on 6 Aug 90. CG LFTCLANT will conduct training for the RAC platoon crews and provide a test directorate to conduct the concept validation as directed by CG MCRDAC and coordinated with CG FMFLANT. CG MCCDC is developing the riverine operational concept for the validation/evaluation of the RAC integrated into the enhanced riverine capability and CG FMFLANT is providing the personnel to man the RAC Platoon, coordinate crew training with CG LFTCLANT, and participate in the Field Users Evaluation (FUE).

(d) Deployments for Training (DETs)

1. In response to a request from CINCSO, Co A, 8th Engineer Support Battalion assisted in the construction of a radar site on the north coast of Honduras. The radar site performs a drug interdiction mission as one of several sites monitoring air

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

and sea traffic in the Caribbean Basin Radar Network (CBRN). Work commenced 16 May 90 and was completed 30 Jun 90.

2. II MEF deployed a Tactical Operations Center (TAOC) (-) to Colombia to provide air surveillance radar support. Sixty Marines and associated equipment assisted the Colombian Air Force from 15 Sept-20 Dec 90 in detecting and monitoring aerial drug smuggling activity.

(e) Riverine Support

1. II MEF provided a representative on a USN/USMC survey team in Ecuador to assess requirements for a future riverine MTT.

2. II MEF personnel conducted riverine training with the Peruvian Navy and Marine Corps as part of a joint USN/USMC riverine short duration exercise. The purpose of the short duration exercise is to train and exercise with the Peruvian Navy and Marine commando forces in combined riverine interdiction and assault missions.

3. A joint USN/USMC team conducted combined riverine training with the Guatemalan Navy/Marine Corps. The Marine Corps contingent of one officer and five enlisted personnel were provided by CG MCCDC.

(2) Current Activities. II MEF is currently providing a Captain with logistics background as a member of a joint USA/USMC/USAF site survey team in Bolivia. This team will assess training requirements and conduct a follow-on MTT to train and assist the Bolivian Joint General Staff for Special Force for the Fight Against Narcotics Trafficking (SFFANT) in operations and logistics planning, training management and communications.

(3) Future Activities

(a) CG MCCDC will deploy 1 officer and 2 enlisted personnel to Bolivia as part of a joint USN/USMC a counternarcotics riverine deployment for training (DFT). The Marines will conduct small unit and reconnaissance training with Naval Special Warfare Unit (NSWU)-8.

(b) At the request of the Peruvian Navy/Marine Corps, a joint USMC/USN DFT will be conducted at the Iquitos Naval Base. The purpose of the DFT is to conduct combined reconnaissance and intelligence training in a riverine environment. This DFT is currently pending SOUTHCOM/SECDEF approval.

(c) In support of Colombia's purchase of riverine craft, CG MCCDC will deploy a MTT to Puerto Leguizamo to conduct operator and employment training.

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

(d) CG II MEF will deploy two Marine SNCO's as part of a joint USN/USMC riverine MTT to Ecuador during the Spring. The Marines will assist in providing instruction on small unit tactics in a riverine environment.

c. CINCFOR (JTF-6)

(1) Past Activities. CINCFOR was assigned the mission of coordinating law enforcement agencies support on the southwest border in an effort to stem the flow of illicit narcotics into the United States. At the CINC's request, the Marine Corps provided a Marine Liaison Officer to Forces Command at Ft. McPherson, GA to assist in their counternarcotics efforts. CINCFOR established JTF-6 at El Paso to carry out his mission. Nineteen billets for Marines were established at JTF-6 in accordance with the approved Joint Manpower Plan and are currently filled. Among these billets are Deputy Commander and Operations Officer. JTF-6 was activated for operations on 2 January 1990 and assumed OPCON of all units deployed for counter-narcotics support to DLEA's along the border.

(a) Initial Southwest Border Training. Joint training with the Border Patrol on the border, now coordinated by JTF-6, was initiated by the Marine Corps in the El Paso, Tucson, Del Rio, and Laredo Border Patrol Sectors. The initial training was conducted by Marines of the I Marine Expeditionary Force (I MEF) and offered the unique opportunity to conduct small unit tactical training in scouting and patrolling, camouflage and concealment, land navigation/map reading, and the selection and manning of observations posts (OP's). The training also had the side benefit of assisting the Border Patrol in observing and reporting smuggler activity in certain areas of the border.

1. A Memorandum of Understanding (MOU) between the Marine Corps and the Immigration and Naturalization Service/ Border Patrol was developed to cover the initial operations. This MOU outlined the parameters of the joint training and surveillance operations concept and was signed by the Commissioner of INS and the Commandant on 11 October 89. The MOU has been superseded by the activation of JTF-6 and is no longer required to provide support along the southwest border.

2. A draft joint training/operations order was developed which documented the agreed upon structure and procedures for the concept. This document became the baseline for all JTF-6 training and operations.

3. The first deployment of Marines to the border occurred in late November 89 when a company (-) from 1st Reconnaissance Battalion teamed up with Border Patrol agents to occupy OPs in the Tucson and El Paso Sectors. The Marines were billeted/messed at Fort Bliss (El Paso) and Davis-Monthan AFB (Tucson). Marines did not engage in search, seizure, apprehension, or pursuit of observed drug smugglers during this training, but they did provide information to the Border Patrol which resulted in some arrests and the seizure of significant amounts of marijuana and

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

cocaine.

4. Fourth Marine Division (USMCR) Marines, augmented by I MEF Surveillance, Reconnaissance, and Intelligence Group (SRIG) elements to include remotely piloted vehicles (RPVs), conducted similar training in the Laredo and Del Rio Border Patrol Sectors from 29 Jan 90 to 2 Mar 90. Their efforts resulted in the arrest of three smugglers and the seizure of large amounts of marijuana.

5. Intelligence Support. CG I MEF assigned an intelligence officer, Captain Bryan Lavender, TAD to the Tucson Border Patrol Sector (11-22 Sep 89) and the El Paso Border Patrol Sector (10-20 Oct 89). He was sent to offer intelligence planning assistance and to aid the Sector headquarters in the formal collection, production and dissemination of tactical intelligence. Previously, there was no formal process for the fusion of the information generated from the individual Border Patrol contacts. LtCol Tom Sullivan USMCR was sent TAD to the Tucson Sector 25 March-8 April in a follow-up visit. LtCol Sullivan assisted the Border Patrol with the implementation of Capt Lavender's recommendations.

(b) Sustained Southwest Border Support

1. Both active and reserve Marine units have provided significant support to JTF-6 since its activation. Below is a listing of the support provided to date by Marine Corps units:

<u>TYPE</u>	<u>UNIT</u>	<u>DATES</u>	<u>LOCATION</u>
LP/OP	MCAGCC	2 Apr-31 Aug 90	29 Palms, CA
Engineer	4th FSSG	2-22 Sep 90	Del Rio, TX
LP/OP/Sensor	4th MarDiv	13 Oct-17 Nov 90	Lukeville, AZ
LP/OP/Sensor	4th MarDiv	10-28 Sep 90	Nogales, AZ
LP/OP/GSR	4th MarDiv	7 Dec 90-2 Feb 91	Kingman, AZ
LP/OP	4th MarDiv	7 Dec-20 Dec 90	Kingman, AZ
LP/OP	I MEF	28 Nov-20 Dec 90	Joshua Tree, CA
LP/OP	V MEF	2-16 Feb 91	Joshua Tree, CA

2. With the exception of the MCAGCC operation, the above support was originally scheduled to be provided by I MEF. However, the MEF's commitment to Operation Desert Shield precluded its participation and the 4th MarDiv/4th MAW team picked up the commitment and commenced operations as originally scheduled.

(2) Future Activities. During the coming months, the 4th DWT will continue to provide support to JTF-6 operations, as requested. Until I MEF completes its redeployment from Southwest Asia, V MEF will also provide support to JTF-6.

d. CINCPAC (JTF-5)

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

(1) Past Activities

(a) Aircraft Support. USMC aircraft (OV-10 and RF-4B) have been provided in support of JTF-5 and the U.S. Customs Service in their detection and monitoring missions.

(b) MAGTF Support. CG FMFPAC has provided MAGTF support to shipboard law enforcement operations along the coast of California. Named LEO MAGTFs, these operations conducted surveillance of the California coastline for suspected smuggler routes and activity. These operations are conducted aboard US Navy ships and were in support of JTF-5.

(c) 1st MEB units conducted CINCPAC's OPERATION WIPEOUT, a Hawaiian marijuana eradication effort. The following support was provided:

- 1 Remote Battlefield Surveillance System (REMBASS) in suspected marijuana fields.
- 2 One air traffic control element.
- 3 One intelligence analyst and one liaison officer to DEA.
- 4 Two portable global positioning systems.

(2) Future Activities. Since many of the source countries in the Pacific theater are not accessible to US forces, the III MEF source country counternarcotics detection, monitoring and interdiction effort will focus on Thailand and the Philippines. MTT's will be provided to train the local military and law enforcement officials in counternarcotics missions to include riverine operations if required.

4. Demand-side Reduction Initiatives. The Marine Corps' internal drug abuse program is well known and has been highly successful in reducing the abuse of drugs within our ranks, but now the Corps is reaching beyond "taking care of its own" and is working with community leaders to assist them in their efforts in ridding their neighborhoods of the scourge of illicit drugs.

a. The Assistant Commandant has appointed the Assistant Deputy Chief of Staff for Manpower and Reserve Affairs, Reserve Affairs, to direct Marine Corps demand-side initiatives with a nation-wide focus which reaches beyond the Corps and into the community.

b. In the last year, Marines have been involved in community oriented drug prevention programs which served over 600,000 civilians. These programs include Boy/Girl/Cub Scouts, Brownies, church groups, elementary and high schools, MCJROTC, and prisons, etc. Marine Corps Substance Abuse Counselors are very much involved in the local community and are frequently called upon to give lectures on substance abuse.

Subj: MARINE CORPS COUNTERNARCOTICS UPDATE

c. In order to formalize the Marine Corps' demand-side program, a Marine Corps Order (5355.4) entitled "Marine Corps Community Drug Education and Assistance Program" (MCCDEAP) has been published. This order provides guidance to the field on ways in which the Marine Corps and the individual Marine can be of assistance to the local community and encourages them to become involved in these programs. In coordination with MCCDEAP, we are developing a program for latchkey children (children in self-care) which will focus on both civilian and military children in and around Marine Corps bases and installations. The purpose is to provide professional guidance and keep children occupied with a developmentally appropriate curriculum which will reduce the demand for illegal drugs.

d. The State of Maryland requested assistance in establishing a youth correctional program. The Department of Public Safety and Correctional Services requested assistance in preparing "drill instructors" for the initial phase. The request was approved by SECNAV and the Marine Corps Officer Candidate School commenced a 3 week orientation course for the 7 identified instructors on 29 Jan 90. The orientation course included organization, discipline, procedures, conduct of drill and physical training, instruction and practice on conducting inspections and establishing standards for clothing, personnel, and billeting areas, etc.; instruction on stress and harassment; and other applicable instruction and training. Assistance will be provided after this initial training of trainers to help the Department establish their own "train the trainers" course. Five of the original 7 Maryland Corrections Officers completed the training course and graduated on 21 Feb 90.

e. In response to a request from the Los Angeles County Sheriff's Department, the Marine Corps Recruit Depot, San Diego Drill Instructor's School conducted two one-week periods of instruction at the Los Angeles County Sheriff's Department Pitchess Honor Rancho. The focus of this instruction was on teaching drill and ceremonies, team and individual motivation, leadership and self-discipline. The training prepared Sheriff's deputies for providing rehabilitation-oriented training to youthful offenders in Los Angeles County. The training was conducted 25-29 Jun 90 and 10-14 Sept 90.

f. Currently the Marine Corps staffs 80 MCJROTC units at high schools throughout the Nation. We are currently pursuing the establishment of an additional 23 units for a total of 103. It is planned to put these additional units at high schools in inner cities, such as Washington, DC. The benefits provided by establishing positive role models in these schools could have a deterrent effect on the use of drugs by our high school students.

g. On 3 Jan 90, Mr. Sterling Tucker, Director, Drug Control Policy for the District of Columbia, visited the Commandant to solicit Marine Corps support for the District's "NOT ON MY BLOCK" program. The program is designed to recapture the District's neighborhoods from the drug dealers. In order to accomplish this goal, the program will rely heavily on citizen volunteers, as well as religious, civic, and business groups

participation. Some aspects of the program include neighborhood watch and cleanup activities, youth education and recreation activities, public relations campaign, and additional police assistance to eliminate the drug dealers. Mr. Tucker requested that the Marine Corps review the program and provide planning assistance to his strategy teams for program implementation. The Marine Corps agreed to review the program and has provided planning assistance as necessary.

h. The Officer Candidate School at Quantico, VA is offering two 3 week rehabilitation-oriented training courses per year for state and local corrections officers. These courses are modeled after the previously conducted training for the Maryland State Corrections Officers. The first course commenced 15 Oct 90 and graduated 2 Nov 90. The second course will be offered 11-29 Mar 91.

5. The Marine Corps has set the pace in the Department of Defense in the counternarcotics effort and continues to be aggressive in assisting the President in reaching his goal of a drug-free America. The Commandant has recognized that this is a goal which we must attain, and is insisting that Marines of all ranks and in all positions in the chain of command get involved in the counternarcotics effort.
