Intelligence Estimate of the Situation in I Corps Zone (I CTZ),
Republic of Vietnam

1. General. This estimate has been prepared to bring the situation in the I Corps Zone, RVN, up to date in order to facilitate preparation of a Commander's Estimate for operations in the zone.
2. Terrain Analysis
 - a. In general, the terrain in the I Corps Zone does not lend itself to large scale military operations due to the vast areas covered by steep, thickly forested mountains. It is bounded on the north by the DMZ and on the west by the 227-mile common border with Laos, which is not definable on the ground. The Zone is divided into regions geographically; a comparatively narrow, flat coastal plain where the majority of the people live and the mountainous region which extends well to the west, north and south outside the limits of the Corps Zone. On the edge of the mountainous region lies an intermediate zone of piedmont perhaps 3 to 5 miles in width which is rolling terrain less densely settled than the plain and which supports dry farming. The western portion of the Zone is an extremely rugged mountainous jungle with peaks rising to 6,000 feet. The jungle growth here has three levels --first: a closely matted growth covering the floor and restricting movement to a maximum of 3 miles a day cross country; next, a tree layer rising to about 70 feet; and finally, another layer rising to about 170 feet. Both of these upper layers provide a canopy which restricts observation and permits unobserved freedom of movement on the ground.
 - b. The mountainous interior is the domain of the Viet Cong primarily by default. The resources of the Vietnamese government are such that little force can be spared for extensive search and destroy operations. The highlands are inhabited by ethnic minorities. As an example of the sparsity of population, Quang Nam Province, in which Danang is located, has a population of some 555,000 of which, less than 35,000 live in the western 3/5ths of the province. Also, because of the difficult terrain, the road network outside the coastal plain is all but nonexistent.
 - c. Lines of communication point out the importance of the coastal zone; particularly noteworthy is the present status of the routes leading inland from Route #1. Route #9 which generally parallels the DMZ in the north is completely closed; bridges have been destroyed along the entire route which also has been dug up in many places. This normally serves the military post of Khe Sanh and the border station at Lao Bao. It also serves the only concentration of people in the I CTZ that is located west of the mountains near the aforementioned towns.
 - d. Route #14 leads WSW toward Kontum Province from the junction with the coast highway near Danang. Trafficability is extremely poor during the rainy season, and the VC periodically interdict and isolate extensive portions of the route throughout the year. The most

important remaining feeder road in the I CTZ is Route #5 which extends from Route #1 in Quang Ngai Province a distance of 99 miles to Kontum.

3. Friendly Situation. Under I Corps at the present time, are the 1st and 2d Vietnamese Infantry Divisions headquartered at Hue and Danang respectively. Their mission is not only to protect the strategic objectives within the five northern provinces but also to furnish ARVN presence along the DMZ in the north. ARVN forces in I CTZ total 30,890. They are augmented by 15,782 Regional Forces, 23,647 Popular Forces, and 3,316 CIDG personnel. Total friendly forces are approximately 75,000.
4. Enemy Situation
 - a. The most recent estimate of confirmed VC/NVA forces in these five provinces is 14,780 men in regular units, another 14,749 guerrillas and an undetermined number of personnel attached to headquarters or various infrastructure forces for a grand total of approximately 30,000.
 - b. The control element for the VC in the Zone is the HQ, VC Military Region V which encompasses the northernmost twelve provinces of the RVN - five in the I CTZ and seven in the II CTZ.
 - c. Directly subordinate to the MR V Hq are three NVA division headquarters. Major combat elements in MR V include two confirmed VC regimental headquarters, and 12 confirmed NVA regimental headquarters. Of these, one VC regiment and three NVA regiments are located in the I CTZ.
5. Reinforcement Capability. Viet Cong/ NVA strengths could be appreciably increased in the I CTZ over a relatively short time span in the form of an in-country re-allocation of VC/NVA elements from the II CTZ and/or contiguous areas of Laos. In addition to this, and of a more probable nature, is an increase in the infiltration rate from the NVN. It is estimated, therefore, that the enemy has the capability to double his strength of Main and Local Force personnel within a period of 45 days. Guerrilla strengths will probably remain constant.
6. Enumeration of Enemy Capabilities. Listed below are possible Viet Cong Capabilities in the order of probable adoption:
 - a. Capability (1): Attack lines of communication and harass smaller installations while avoiding major battles. This is an ever present capability that will probably be exercised if the enemy is significantly out numbered.
 - b. Capability (2): Attack in I CTZ with up to two regiments. Exercising this capability with existing resources would provide the VC with an opportunity to offset reverses recently suffered in other areas. It is, as well, a logical mission to be assigned by Hanoi to reduce the U.S. aircraft inventory.

- c. Capability (3): Attack up to three dispersed installations simultaneously in battalion strength within 48 hours. With a demonstrated ability to simultaneously attack in dispersed locations, and for the same reasons as mentioned in paragraph 6.b., this is considered a capability probable of execution.
- d. Capability (4): In conjunction with Capabilities (1), (2), or (3), reinforce with an infiltrated NVA regiment from outside RVN within 30 days. In the event the enemy redirects his emphasis to I Corps, he has only to exercise this proven capability.
- e. Capability (5): In conjunction with Capabilities (1), (2), (3), or (4), reinforce with a regiment (NVA or VC) from II Corps within 10 days. Because the enemy has exercised this capability once, and because of his retained interest in the Central Highlands, it is considered unlikely that this capability will be adopted.

NOTE: A comprehensive I Corps Intelligence Estimate is on file in the G-2 Division and is available to the Staff upon request.
