Intelligence Estimate of the Situation in I Corps Zone (I CTZ)
Republic of Vietnam

1. General. This estimate has been prepared to provide the staff with a concise evaluation of the enemy situation in I CTZ, RVN.

2. Terrain Analysis.

- a. With the exception of coastal areas, the I Corps Zone does not lend itself to large scale military operations. It is bounded on the north by the DMZ and on the west by the poorly defined 227-mile border with Laos. The zone is divided into a populous and comparatively narrow coastal plain and a mountainous region which extends to the west, north and south outside the limits of the Corps Zone. Separating the two regions is a zone of piedmont three to five miles in width which is less densely settled than the plain and which supports dry farming. The western portion of the zone is an extremely rugged mountainous jungle with peaks rising to 6,000 feet. The jungle growth has three levels: (1) a closely matted growth covering the floor and restricting movement to a maximum of three miles a day cross country; (2) a tree layer rising to about 70 feet; and (3) another layer rising to about 170 feet. Both of the upper layers provide a canopy which restricts observation and permits unobserved movement on the ground.
- b. The most important road in the I Corps Zone is National Route # 1. This route originates just south of the Demilitarized Zone, generally parallels the trace of the coast southward and finally terminates at the capital city of Saigon. There are four significant east/west roads, all of which join with National Route # 1. Route # 9 generally parallels the DMZ and leads into Laos. Route 547 extends from the A Shau Valley to Hue. USMC forces have improved the eastern sections of the road and recently the enemy has improved the western sections. Route # 14 leads west and southwest from Danang into Kontum Province. Route # 74 originates south of Quang Ngai and terminates at Kontum City. With the exception of Route # 1, the roads in I Corps are generally characterized by sharp curves, steep grades and loose surfaces. They are subject to landslides and washouts during the rainy season. USMC forces have constructed additional roads for local use. The longest stretch of newly constructed road lies between Danang and the area of An Hoa (approx. 20 miles). The enemy has continuously harassed and sabotaged the roads in I Corps.

3. Enemy Situation

- a. Within the I CTZ, the DMZ and adjacent areas of Laos and NVN, there are an estimated 78,000 enemy troops of all categories (NVA, VC, Guerrillas and Administrative Services). Generally, the enemy forces are disposed as follows:

<u>AREA</u>	<u>STRENGTH</u>	<u>BATTALIONS</u>
Khe Sanh Area	15,500	16

26 Mar 68

Eastern DMZ Area	13,000	13
Tri-Thien MR	15,500	25
Quang Nam/Quang Tin	12,000	18
Quang Ngai	2,500	7
Guerrillas/Administrative Services (throughout I CTZ)	19,500	
	<u>78,000</u>	<u>79</u>

b. The enemy's recent Tet Offensive has cost him heavily in the I CTZ. While major elements of his forces were active in the coastal regions, he positioned two divisions in the vicinity of Khe Sanh. In addition, NVA forces have become increasingly active in the A Shau Valley and along Route 547. In late March, there was some evidence that two regiments were withdrawing from the Khe Sanh area and heading for the A Shau Valley.

4. Enemy Capabilities. Listed below are enemy capabilities in the probable order of adoption:

- a. Capability (1): Conduct a widespread campaign of terror, harassment of smaller installations and interdiction of LOCs while avoiding major combat with US forces.
- b. Capability (2): Attack in the Khe Sanh area with up to two divisions.
- c. Capability (3): Attack in the eastern DMZ with up to 1 Division and 1 Regiment.
- d. Capability (4): Attack in the Quang Tri City area with up to three regiments.
- e. Capability (5): Attack in the Hue/Phu Bai/Phu Loc area with elements of five regiments.
- f. Capability (6): Attack in the Danang/Quang Nam/Quang Tin area with up to one division and one regiment.
- g. Capability (7): Attack in the Quang Ngai area with one regiment.
- h. Capability (8): Support capabilities (1) through (7) by rockets and, in the DMZ area artillery.
- i. Capability (9): Reinforce in northern I CTZ with two divisions from NVN in 10-12 days.
