The USMC Officer PME Program is codified in Marine Corps Order MCO P1553.4B, Professional Military Education.

PME Complete Criteria are those PME courses identified in the PME Order which, when completed, make a Marine more competitive for promotion.

Joint PME Requirements are based on educational requirements specified in the Chairman of the Joint Chiefs of Staff Instruction, Officer Professional Military Education Policy (OPMEP) CJCSI 1800.1D (15 July 2009) and mandated by the Goldwater-Nichols Defense Reorganization Act of 1986 (established by the Skelton Committee on Armed Services in 1989). Officer Joint PME consists of two phases; JPME Phase I is completed at Service Intermediate Level School (ILS) (resident or nonresident distance education program) or foreign ILS and JPME Phase II is obtained at a National Defense University or Service Top Level School (TLS) (resident only) or at Joint & Combined Warfighting School (JCWS) (10-week course). Joint PME Phase I and II combined are the education requirements that must be satisfied for a Marine Officer to become a JQO/JSO and therefore eligible for selection to general. (The 2005 National Defense Authorization Act requires that after 30 September 2008, only officers that have earned a JQO/JSO designation may be appointed to general officer).
