

# MAGTF Ops Afloat

## **Purpose**

To educate students on sea-based MAGTF operations through the lens of the Single Battle Concept and ARG/MEU integration using Maneuver Warfare Philosophy and Amphibious Operations Doctrine, Techniques, and Procedures

## **Method**

Four sub-courses focused on the Maritime Expeditionary Environment, Amphibious Doctrine and Fundamentals, the ARG/MEU, and Amphibious Planning Exercises

## **Endstate**

Operating within a JIIM environment, EWS graduates will be able to plan for the doctrinal employment of a combined arms MAGTF, both ashore and afloat, through the use of expeditionary enablers to execute complex and distributed naval expeditionary operations.
