

# MAGTF Ops Ashore

## **Purpose**

To educate students on the elements of the MAGTF through the lens of the Single Battle Concept using our Maneuver Warfare Philosophy.

## **Method**

Eight sub-courses within three rotations, consisting of C2, ISR, Fires, and Logistics as Rotation One; the Aviation Combat Element and Operations in the Information Environment as Rotation Two; and MAGTF in the Offense and MAGTF in the Defense as Rotation Three.

## **Endstate**

EWS graduates will be able to integrate all warfighting functions and plan for the doctrinal employment of a combined arms MAGTF ashore through the use of expeditionary enablers to execute complex and distributed naval expeditionary operations.

# MAGTF Operations Ashore

**Course Outcomes:**

- Understand detail required for integrating individual warfighting functions/critical planning areas in the MAGTF
- Conduct IPB against a peer-inspired threat.
- Use the MCPP to plan a rifle battalion through 1x Offense, and 1x Defense Operation
- Conduct Force-on-Force DMX against thinking adversary
