

Occupational Field Expansion Course

Purpose

To reinforce the education delivered during the curriculum and enhance the students' ability to blend the military art (education) with the military science (training) to **increase their proficiency in their primary MOS.**

Method

- The Fall OFEC period is three days in length and focuses on **refreshing and expanding the students' knowledge** within their individual MOS while preparing them to be subject matter planners for subsequent MAGTF **planning efforts.**
- The Spring OFEC period is three weeks in length and concentrates on **further developing the students' MOS proficiency** as they prepare to re-enter the Operating Forces.
- Brown bags / extra events as able / designed by sub course directors

Endstate

EWS graduates **demonstrate proficiency in their respective MOS** and effectively employ their MOS skillsets when planning the tactical operations of an integrated combined arms MAGTF.
