

How to verify your PME status:

To verify if your PME course completion has been entered, **Log-In** to your [MARINE ONLINE](#) account & select **Personal Info** from one of the top bars; then select **Education** from the **Personal Reports** options. A summary of the **Education Information Report** page will display **Service Schools** completed.

If you are up for a promotion board, the first place that is looked at for PME completion is the above mentioned **Service Schools** section which is the same information posted on a Marine's Master Brief Sheet. If the PME Course is not shown there, a Marine's OMPF will be looked through for the actual scan of the Course Completion Certificate. For additional information regarding PME and promotion requirements please visit Manpower's Career Counseling [Preparing for a Board](#) page.
