MCU Academic Year and Calendar

Functional Lead: VPAA
Division: ASD
Responsible Office: Registrar

Reference: (a) SACSCOC Principles of Accreditation
(b) Resource Manual for the Principles of Accreditation

1. **Purpose.** This section outlines and codifies the policy and procedures for defining and calculating Marine Corps University (MCU) Academic Year (AY) and calendar.

2. **Background.** MCU / Education Command operates on various annual schedules, to include the U.S. government fiscal year from 1 October - 30 September, various training requirements and Foundation support based on a calendar year from 1 January - 31 December, a civilian appraisal system from 1 April - 31 March, and the like. As an accredited master’s degree granting institution, MCU also administers programs that operate on an AY. Defining the AY aligns MCU’s practices with higher educational norms.

3. **Policy**
   
a. **AY defined.** The MCU AY runs from 1 July - 30 June annually. The AY is numerically designated by the CY in which it ends. Example: AY21 runs from 1 July 2020 - 30 June 2021.

   b. The Marine Corps War College (MCWAR), the School of Advanced Warfighting (SAW), Command and Staff College (CSC), CSC Distance Education and Blended Seminar Programs (DEP/BSP), Expeditionary Warfare School (EWS), and the EWSDEP/BSP operate on an AY basis, and graduates thereof will be described as of the “Class of (applicable AY).”

   c. All other MCU educational programs operate on an FY basis and are numerically designated by the FY in which their respective courses start. Multiple iterations of a course in a single FY are numbered sequentially. Example: FY21 runs from 1 October 2020 - 30 September 2021; the first Sergeants School course starting after 1 October 2020 is 1-21; the second is 2-21, etc.

   d. **AY Program length.** Program lengths vary depending on the needs of the Marine Corps and, where applicable, regional and / or joint accreditation requirements, the time needed to achieve program outcomes, and the ability of MCU to provide the required faculty, staff, and administrative and logistical support needed to administer them.

      i. MCWAR and CSC are “10 month” programs, defined as 44 calendar weeks of coursework from the first day of scheduled class to MCU Commencement.

      ii. SAW is historically an “11 month” program defined as 48 calendar weeks of coursework from the first day of scheduled class to MCU Commencement. Subject to the concurrence of the Vice President for Academic Affairs to ensure master’s degree requirements
are maintained, the Director, SAW may in his or her discretion reduce program length in any
given AY or permanently to no less than 44 calendar weeks of coursework provided all
outcomes required for granting the additional military occupational specialties 0505 and 0506 to
graduates are met.

iii. EWS is historically a “9 month” program defined as 40 calendar weeks of coursework
from the first day of scheduled class to graduation.

iv. EWSDEP and CSCDEP are 2-AY programs. The EWSBSP and CSCBSP are
administered within a single AY scheduled to be completed contemporaneously with the
graduation or commencement of EWS and CSC, respectively for the Quantico region.

c. MCU Academic Calendar. Unless otherwise directed by the President, MCU, the MCU
Commencement is on the Wednesday of the first full working week following the Memorial Day
holiday.

i. The first week of classes is the week in which the 44th (MCWAR, CSC) and 48th
(SAW) Wednesdays preceding MCU Commencement fall. EWS first week of classes is the
same week as MCWAR and CSC first week. Program directors may determine which day of the
week is the first day of class for their respective programs.

ii. Student reporting dates should be established in order to complete all administrative
reporting, join, and check-in requirements prior to the first day of class.

d. Holidays. MCU and individual AY program academic calendars will reflect federal
holiday and established Marine Corps liberty periods, to include normal weekend liberty, but
will otherwise account for all regular duty days throughout the academic year with either
scheduled classes or scheduled student preparation time.

4. Procedures

a. No later than 1 November each year, the MCU Registrar, in coordination with program
directors and the VPBA Business Manager, will develop and publish the AY calendar for the
subsequent AY and notional calendars for the subsequent 4 AYs, calculated per the policy
described above.

b. Each AY calendar will be published on the MCU website and include:

i. Student Reporting no earlier than and NLT dates;
ii. First day of classes
iii. MCU Convocation (Friday of MCWAR, CSC, and EWS Week 1)
iv. Due dates for MCWAR, SAW, and CSC student transcripts / foreign credential
evaluations
v. Placeholder dates for major events such as the President's Lecture Series (Also see
Major Events Policy and Procedures - link forthcoming)
vi. Holidays and projected associated liberty periods
vii. Final Grades due dates  
viii. EWS Graduation date  
ix. MCU Awards Ceremony date (Monday of MCU Commencement week)  
x. MCU Commencement date  

c. Individual program calendars will incorporate MCU AY calendar dates and events.
