(Cont'd on next page.)
March 21, 1918.

(Cont'd from last page.)

(a) Weather - rain, cloudy and foggy.
(b) No unusual activity, except a slight increase in enemy artillery fire against Riga sector, occupied by 1st Bn. of 23rd Inf.
(c) Casualties - None.
(d) Artillery activity on both sides, normal.

GENERAL IMPRESSIONS OF THE DAY: Quiet and very normal.

(Sgd) G. A. Herbst.
G. A. HERBST,
Major of Inf.
G. 3.

Headquarters, Second Division,
American Expeditionary Forces,
France, 9:00 A.M., March 21, 1918.

Special report to G.H.Q., A.E.F., to Lt. Col. W.S. Grant, correcting report of March 20, relative to attempted enemy raid against 1st Bn., 23rd Inf. in the Riga center of Resistance.

On the evening of March 15, 1918, 2 Bn snipers of the 1st Bn, 23rd Inf. were out in front of line in an old abandoned trench bldg, a sniping post. At 7:40 P.M. they observed 3 Germans working in the wire to their front and immediately notified the sector Commander, who prepared to open fire with an automatic rifle. Before he could bring it into action the Germans who had increased to about 30 in number opened fire. Both sides called for barrage. The German fire lasted from about 7:45 P.M. until 9:00 P.M.

The casualties were:
Co. "A"
1 Private killed. Decorated with the Croix de Guerre.
3 others slightly wounded.
Co. "B"
1 wounded.
Co. "C"
1 Private died of wounds on March 19th.
6 others wounded.

The enemy did not penetrate our lines. The conduct of the troops was excellent. Their morale is high and has been increased by this small action.

(Sgd) G. A. Herbst
G. A. HERBST,
Major of Infantry,
G. 3.

American Expeditionary Forces,
France, 9:00 A.M., April 2, 1918.

Telephonic report to G.H.Q.A.E.F., to Lieut. Colonel W.S. Grant, for period 8:45 A.M. April 1 to 8:45 A.M. April 2, 1918.

(a) Weather: rain and cloudy.
(b) Enemy activity: Normal.
(c) Enemy artillery activity: Excessive firing in southern part of Sector. Division Headquarters shelled since 8:00 A.M. today. Otherwise normal.
(d) Casualties: 1 man killed, 1 man died of wounds and 4 or 6 wounded by shell fire - all from 2nd Bn. 8th Marines on afternoon of April 1st. 5 men of 23rd Infantry wounded by premature explosion of rifle grenade.
(e) Enemy aeroplane and balloon activity: Normal. Visibility intermittently fair.

General Impression of the Day: Quiet. Weather conditions made observation only intermittently possible, but enemy railway movement to and from CON-PLANS is believed to continue.

(Sgd) G. A. Herbst
G. A. HERBST,
Major of Infantry,
G-3.

April 3, 1918.

Headquarters, 2nd Div., A.E.F.
France, 9:00 A.M., 3rd April, 1918.

Telephonic report to G.H.Q.A.E.F., to Lt. Col. W.S. Grant, for period 8:45 A.M. April 2, to 8:45 A.M., April 3, 1918.

(a) Weather: Intermittent showers during day. Clear during night.
(b) Enemy activity: Intermittent sniping, rifle and machine gun fire.
(c) Enemy artillery activity: Increased artillery activity (Cont'd on next page.)
April 3, 1918.

Telephonic report to G.H.Q., A.E.F., to Lt. Col. J.S. Grant, for period 8:45 A.M. April 2 to 8:45 A.M., April 3, 1918.

(Cont'd from last page.)

probably in response to American Artillery Activity.

(c) Casualties: On April 1st our 23rd Infantry had 2 men killed and 2 men wounded and the 5th Machine Gun Bn. 1 man killed and 1 wounded, all in action. These reports received late on April 2nd.

(e) Enemy Aeroplane Activity: None.

Balloon activity: Normal.

General Impression of the day: Quiet. Enemy railroad activity seems to continue in the direction of Conflans. Movement beyond Conflans can only be conjectured.

(Sgd) G. A. Herbst
G. A. HERBST,
Major of Infantry, G. 3.

Headquarters, 2nd Division, A.E.F.,

Supplementary telephonic report to G.H.Q., A.E.F., to Lt. Col. W.S. Grant, for period 8:45 A.M. April 2nd to 8:45 A.M., April 3, 1918.

Enemy Activity: Enemy conducted raid on a listening post of 23rd Infantry at 5:45 A.M. April 3rd, accompanied by heavy bombardment. Our barrage was put down but enemy succeeded in raid. Five (5) Americans killed, 2 wounded and 3 missing, probably captured. Enemy casualties not known.

Ansemont, where some of our troops are billeted was shelled from about 9 A.M. to 9:30 A.M. today.
Co. D, Div. Supply Train was shelled for a distance of nearly 5 K. this A.M.
No casualties in either case.

(Sgd) G. A. Herbst
G. A. HERBST,
Major of Infantry, G. 3.

WAR DIARY OF THE 2ND DIVISION
American Expeditionary Forces.

Date: April 3, 1918.

Location: Sectors TOULON and TROYON occupied by the 10th French Army Corps, with 2nd Division Headquarters at SOMMELIEUE.

Health: Deaths -- -- -- -- -- -- -- -- -- -- No officers, 5 men.

Absent sick from present area 19 " 711 "

Sick in hospital in present area 2 " 87 "

Ammunition on hand: Artillery 45015 rounds.

Rations on hand: 2 days reserve and 1 days field with troops.
3 days reserve in supply train.

Forage on hand: 2 days.

Strength of Command, present and absent: 1261 officers, 25,606 men.

Strength of Command in present area: 1041 officers, 23,332 men.
Available for duty in present area : 1039 " 23,946 "

Weather: Intermittently fair during day. Rain towards close of day.

(Cont'd on next page.)
April 3, 1918.

WAR DIARY OF THE 2nd DIVISION.

(Cont'd from last page.)

Camps: Billets good.
Remarks: Deaths — killed by enemy artillery fire — belonged to 2nd Trench Mortar Battery.

ATTESTED.
(Sgd) Wm. W. Bessell
Lieut. Colonel, Adjutant General, G-3. 2nd Div. A.E.F.
A D J U T Â N T
G. A. H.

April 4, 1918.

Headquarters Second Division,
American Expeditionary Forces,
France, 9:00 A.M. 4th April, 1918.

Telephonic report to G.H.Q.A.E.F., to Lieut. Colonel W.S. Grant, for period from 8:45 A.M. April 3 to 9:45 A.M., April 4, 1918.

(a) Weather: fair during greater part of day. Rain towards evening.
(b) Enemy activity: normal, machine gun and rifle fire.
(c) Enemy artillery activity: considerable intermittent shelling throughout our back area.
(d) Casualties: 5 Killed, 6 wounded in 2nd Trench Mortar Battery. 3 wounded in 17th Field Artillery. Yesterday's report of casualties in 23rd Infantry to be corrected as follows: 3 killed, 2 wounded, 1 missing.
(e) Enemy aeroplane and balloon activity: greatly increased. Visibility good.

General Impression of the Day:
Enemy artillery and balloon activity considerably increased. Increased road traffic in St. Mihiel salient gives basis for belief that relief of a German division is taking place, the location of the towns pointing to the 88th Reserve Division.

Weather: Fair.
Camps: Billets good.
Remarks: Headquarters, 2nd Division, at 2:00 was moved temporarily from SOMMEDIEUE to P.C. TOULON as a precaution against expected artillery activity of the Germans.
Attested:
(Sgd) Wm. W. Bessell (Sgd) G. A. H.
Lt. Col., Adjutant General, G. S. 2nd Division, A.E.F.
Adjutant. G. A. H. G-3
April 6, 1918.

Headquarters Second Division,
American Expeditionary Forces,
France, 9:00 A.M. 5 April, 1918.

Telephone report to G.H.Q. A.E.F., to Lt. Colonel W.S. Grant,
for period 9:45 A.M. April 5 to 9:45 A.M. April 6, 1918.

(a) Weather: fair and warm.
(b) Enemy activity: Intermittent rifle and Machine Gun fire.
(c) Enemy artillery activity: Considerable increase in enemy
Artillery activity probably due to activity of our own
artillery.
(d) Casualties: Due to enemy shell fire:
   6th Marines:
     2 men killed
     3 men wounded
   9th Infantry
     3 officers
     in afternoon
     wounded
     2 men
   In forenoon.
   The body of man reported missing after raid
   on 23d Inf. on April 3rd was found in No Man's
   Land by one of our wiring parties.
(e) Enemy aeroplane activity: Normal.
   French Activity considerably increased.
   Enemy balloon activity: Considerably increased.
   Visibility good.

General Impression of the Day: Quiet.

The railroad activity in the enemy's rear area
seems to continue, the general trend being from
South to North. According to statement of prisoner
the 10th Landwehr Division relieved the 11th Bav.
Div. on March 23rd.

OPINION:

Judging from the reports of the last ten days there
seems but little doubt that ETAIM is the center of
enemy activity on our immediate front, holding the
same position in the advanced zone that Metz holds
further to the rear.

April 7, 1918.

Headquarters, 2nd Division, A.E.F.,
France, 9:00 A.M., 7 April, 1918.

Telephonic report to G.H.Q., A.E.F., to Lt. Col. W. S. Grant, for period 8:45 A.M. April 6 to 8:45 A.M. April 7, 1918.

(a) Weather: Cloudy until late in the afternoon.
(b) Enemy activity: Night of April 6 - 8 enemy raided our 9th Infantry front without result.
Same night another raid attempted against our 23rd Infantry front which reached the wire entanglements, but broke under our rifle fire. Our troops left their trenches and pursued enemy driving him from his first line trench next as far as his support trenches.

(c) Enemy artillery activity: Considerably increased.
Our heavy artillery very active - 2 enemy batteries believed to have been destroyed. This is to be verified by aeroplane photographs.

(d) Casualties: In raid against 23rd Infantry.
1 man killed,
1 Officer
3 men wounded.

(e) Enemy aeroplane and balloon activity: Below normal. Visibility poor.

General Impression of the day: Enemy activity above normal - apparently determined to obtain all possible information about American troops. Heavy railroad traffic in enemy rear area seems to continue.

Telephonic report to G.H.Q., A.E.F., to Lt. Col. W.S.
Grant for period 8:45 a.m. April 7 to 8:45 a.m. April 8, 1918.

Weather: Rain and clouds.

Enemy Activity: At 5 a.m., April 7th, enemy dropped a heavy barrage on front trenches of 23rd Inf. At 2:10 a.m., April 7th, a patrol from 6th Marines and some French soldiers encountered German patrol and compelled it to retire. German barrage was dropped and stopped pursuit. Four (4) Germans killed. One corporal 6th Marines missing. Search was made for his body but without result.

Enemy artillery activity: Very active with harassing fire on our front line trenches, and raidering and demolition fire on our batteries. Made extensive use of gas shells. Registration and retaliation by American batteries.

Casualties: 23rd Infantry - 3 men wounded.
6th Marines - 1 Corporal dead; body found in no man's land by patrol night April 7-8.

Enemy aeroplane and balloon activity: None. Visibility poor.

-------------------------------------

Headquarters, 2nd Division, A.E.F.,
Franco, 4:00 P.M., 13th April, 1918.

Col. W.S. Grant.

A late report from the 6th Marines develops the fact that the bombardment between 4 and 8 A.M., April 13th, was more severe than at first reported. About 3600 shells of various calibers fell in the immediate vicinity of C. R. MONT-BOIS-COTTE held by the 1st Bn., 6th Marines. It is estimated that half of the shells were H.E. and the other half gas shells, greater part being yellow cross with a mixture of blue cross. It is reported that at the first salvo a 105 caliber gas shell, yellow cross, struck a platoon shack in which sixty (60) men were sleeping. Fragments of this shell damaged four rifles and one automatic pistol and some blankets and articles of clothing. Nine other buildings were struck to a slighter extent. No men injured by shell fragments. Casualties 2 officers, 106 men, due to gas poisoning, seriousness undetermined. The camp will be evacuated tonight for another billet. Chlorinate of lime has been used in the affected area.

(Sgd) G. A. Herbst
G. A. HERBST
Lieut.-Col. of Infantry,

Above casualty list has been increased to 190 men, most of them only slightly gassed.

(Sgd) G. A. Herbst
Lt. Col. of Infantry.

-------------------------------------

Report from the 2d Division telephoned by Capt. Orton, A.D.C. to Lt. Col. Grant at 2:43 P.M.

Weather fair. Enemy activity intermittent sniping and machine gun fire. Our troops active with reconnaissance, ambuscade, wire patrols and wiring parties but without incident. Enemy artillery activity, heavy shelling of southern sector continued. Heavy shelling in vicinity of Division Hqrs., (at P.O. TOULON), including many mustard gas shells, probably searching for some of our batteries. Casualties - 8 men wounded by shell fire. Enemy aerial and balloon activity: Considerable enemy activity by both avion and balloon.

(Cont'd on next page.)
Report from the 2d Division telephoned by Capt. Orton, A.D.C. to Lt.Col. Grant at 2:43 P.M. (Cont'd from last page.)

Visibility good.

Miscellaneous: 117th Division which has been in reserve in Army Detachment has been withdrawn. Unusual movement of small groups of men opposite our southern sector in direction of rear zone. Considerable railroad activity was observed.

General Impression of the day: Continuation of heavy artillery activity against our southern sector; unusual movement of troops towards the enemy rear area.

Note: While this message was being received a report from the 6th Marines came in stating that there were very few casualties from the gas shelling of last night, 1 man being wounded by a shell fragment and five cases of gas intoxication, apparently slight.

MESSAGE TELEPHONE received at 12:20 P.M.

From P.O. BOURIVAL to FRENCH MISSION

A German attack carried out by 4 Companies on C.R. MARIE-LOUISE started about Midnight and ended at about 5 A.M. About 60 German corpses are in our hands. One or two Machine-guns have been taken, probably two. The attack was carried out in depth up to the MAIZEY – ST-MIHIEL road. We have 10 prisoners in our hands. American losses are not yet known. First approximation reported about casualties: 60 wounded, some killed and a few missing, probably 10 of the latter, amongst which is the Surgeon. It has been an extremely severe hand to hand fighting. All Americans behaved splendidly. It is a fine feat of arms.

April 14, 1918.

Telephone Report received from Col. Craig re 2d Division, received at 6:35 P.M. by J.A. Sheehan.

Col. Craig stated that a report had just been received from Col. Brown, Chief of Staff, 2d Division, as follows:

"A strong German raid was made on the sector Marie Louise. Prisoners report the attack was made by two companies of Sturmbat and three companies of the 27lst Regiment. The infantry was made up of selected men. The attack lasted until 5 A.M. April 14, following a most violent bombardment on the whole Ruvois sector. The bombardment began about 5:30 P.M. April 13. At first barrage our men took to shelters and when barrage lifted they came out of the shelters and found a line of men in front line trenches, some of whom were talking French, and some in French uniforms, who endeavored to convince our men that they were French soldiers sent out to reinforce the sector. One of them cried "Gau". Deceived for a moment our men started to put on their masks. The ruse was discovered and the fight started. Apparently the Sturmbat penetrated the subsector and moved in the sector and then toward the front trenches, capturing one medical officer and four hospital corps men on (Cont'd on next page.)
April 14, 1918.

Telephone report received from Col. Craig re 2d Division, received at 6:35 P.M. by J.A. Sheehan. (Cont'd from last page.)

their way. In hand to hand fighting the men were driven off.

"Our casualties at present:
Company I, 9th Infantry, 2 killed, 9 wounded, 4 missing.
Company L, 9th Infantry, 4 killed, 18 wounded, exact number of missing not known, probably 8 or 10. 1 officer killed, probably from Co. L. Medical Corps, 1 officer and 4 men missing, 1 man wounded.

"At ten o'clock this morning the German casualties inside of our lines were 35 killed and 10 prisoners. Casualties in front of our trenches not yet counted but known to be a large number of dead, and it is also known that a large number of wounded were carried back. At one time the Germans had 25 or more prisoners but the men broke loose and over 50% escaped. One man taken prisoner knocked his captor down with his fists took his gun away, killed him and returned to our lines with his rifle. Further details as soon as they can be obtained.

CRAIG.

Headquarters, 2nd Div., A.E.F., France, 9:00 P.M., April 14, 1918.

Supplementary report on German raid against C.R. MARIE LOUISE on night of April 13-14, 1918:-

About 11:45 P.M., April 13th, the Germans made a strong raid on the 9th Infantry in C.R.MARIE LOUISE. Prisoners report attack made by 1 company of Pioneers, 1 company of Sturmtruppen and 3 companies of selected men of 273rd Reserve Regt., about 400 men. This has not yet been verified. The attack followed a most violent bombardment of 6 hours on the whole of ROUVROS (9th Infantry) sector and lasted until 5:00 A.M., April 14th. The Germans penetrated our lines for over 700 meters. Due to its extent our line is thinly held, and the Germans apparently found their way through a gap on one or both flanks of the south part of the sector, then moved eastward toward the front line trenches. They captured 1 Medical officer and 8 hospital corps men, in a dressing station in a quarry about 700 meters from front line trenches, but overlooked 1 Officer and 8 men of a Machine Gun Co. in another dug-out close by. Some of the Germans talked French and attempted to pass themselves off as French Soldiers. Several raised the cry of "Gas". Received for a moment our men started to put on their gas masks. Fortunately the ruse was almost immediately discovered and the fight started. It was dark and foggy and difficult to tell friend from foe. The fighting lasted until nearly 5:00 A.M., sometimes hand to hand, but the Germans finally retired.

So far 40 German dead have been counted. Other German dead and wounded are in No Man's Land. We took 11 German prisoners including 7 wounded.

Our casualties, including the entire 9th Infantry sector, are:
1 Officer, killed, by shell fire.
13 Men killed.

(Cont'd on next page.)
Supplementary report on German raid against G.R. MARIE LOUISE on night of April 13-14, 1918:—
(Cont'd from last page.)
3 Officers} Wounded.
47 Men
2 Officers} Gassed.
50 Men
1 Medical Officer} Missing.
27 Men
It is possible that some of the missing may turn up in the course of the next few hours.
One Machine Gun captured by Germans.
We captured a number of parts of German machine guns.
The battalion report, as soon as received, will be forwarded.

for period 8:45 A.M., April 18 to 8:45 A.M., April 19, 1918.

(a) Weather: Fair in forenoon; cloudy in afternoon.

(Cont'd on next page.)
April 19, 1918.

Telephonic report to G.H.Q., A.E.F., to Lt. Col. W.S. Grant, for period 8:45 A.M. April 18 to 8:45 A.M., April 19, 1918.

(b) Enemy activity: Enemy active with patrols and machine gun fire.

(c) A raiding party of 30 Americans and 30 French made a raid at a point opposite extreme northern limit of sector held by our troops. Result: No prisoners, no casualties. Several dead Germans were evidently killed by our barrage.

(d) Enemy artillery activity: Careful ranging and harassing fire against our trenches and batteries. Enemy barrage laid on C.R. Eix. A large number of shells fired against our batteries failed to explode.

(e) Our artillery put down a number of barrages.

(f) Casualties: None.

(g) Enemy aeroplane and balloon activity: None. Visibility poor.

General Impression of the Day: Quiet. Careful ranging by enemy on our entire front may indicate preparations for a series of minor operations against our troops. As far as can be determined the enemy hold the front opposite us with but four divisions. One-third of this line, from LES EPARGES to SEUZERY is believed to be held by one division – the 225th Division.

(b) Enemy activity: At 4:15 A.M. enemy made a raid accompanied by heavy barrage on Northernmost sector held by our troops but was driven off. One German Officer and two men found dead in our trenches, and one German wounded. Our casualties - 2 men killed and 12 wounded. In another sector of same regiment one of our patrols encountered enemy patrol. Enemy casualties not known. Our casualties - 2 wounded, 2 missing.

(c) Enemy artillery active in careful ranging on our trenches and batteries and in several barrages during the night.

(d) Our artillery active in demolition fire on enemy trenches and batteries.

(e) Casualties: 2 men killed, 1 officer and 14 men wounded, 2 men missing.

General Impression of the Day: While considerable railway activity was observed in enemy's rear area, it is not believed to have any special significance. The movements are all for short distances only. It is possible that the horse and motor transport has been largely withdrawn from the local front and sent to Northern battlefields; the transport of supplies being largely done by railway, causing unusual train movement.

TELEPHONE REPORT FROM SECOND DIVISION G.3
APRIL 20, 1918, 4:30 P. M.

The Germans made a raid after artillery preparations on extreme northern sector; as far as has been reported to date, our casualties are 3 men wounded and none missing; of the enemy, 2 men dead in our trenches and two wounded, both of whom have died. They belonged to the 378th Regiment of the 10th Landwehr Division, confirming order of battle. Also 1 German officer, a lieutenant, observed dead in wire.

---

War Diary of the Second Division,
American Expeditionary Forces.

Date: April 20, 1918.

Location: Sectors TOULON and TROYON occupied by the 10th French Army Corps with 2nd Division Headquarters at P. O. TOULON.

Health: Deaths: No Officers, 4 men. Absent sick from present area: 43 1164 " Sick in hospital in present area: 5 159 "

Ammunition on hand: No change.

Rations on hand: 2 days reserve and 1 days field with troops. 2 days reserve in supply trains.

Forage on hand: 2 days.

Strength of command, present and absent: 1,248 Officers, 26,610 men.

Strength of command in present area: 986 Officers, 23,932 men. Available for duty in present area: 994 " 23,632 "

Weather: Cloudy. ATTESTED:

Camps: Billets good.

Remarks: None. Adjutant General, Adjutant.

O.S.G.S. 1st Corps. G. A. H.
April 21, 1918.

Headquarters, 2nd Div., A.E.F.,
France, 9:00 A.M. April 21, 1918.

(a) Weather: Cloudy with occasional sunshine.

(b) Enemy activity. Proceeded by a preliminary bombardment of front line trenches and accompanied by heavy barrage the enemy made a raid with about 60 men on O.R. Mont-sous-los-COTES between 1 and 2 A.M., but our automatic rifle and rifle fire compelled him to retire on reaching our wire. At daylight about 16 Germans were seen making their way into their own trenches. Enemy casualties: 2 dead picked up in our wire. Our casualties: 1 man wounded.

(c) Our troops, with a party of 9 Officers and 205 men raised the enemy's trenches opposite O.R. BIZERTE at 4:10 A.M. accompanied by barrage fire, but found the trenches empty. Our casualties: 1 man killed, 2 officers, 7 men wounded, 1 man missing. Our of our patrols, later brought in 1 dead and 1 wounded German.

(d) Enemy artillery active during day in harassing fire on our back area, and during night in bombardment and barrages on two of the sectors held by American troops.

(e) Our artillery active in reprisal fire and bombardment and barrage on enemy's lines.

(f) Casualties: 2 men killed; 2 officers, 8 men wounded; 1 man missing.

(g) Enemy aeroplane and balloon activity: Normal. Visibility fair. One balloon was seen to burst into flames and completely destroyed.

General impression of the day: Normal activity. Heavy railway movements for short distances in enemy's rear area continues. Considerable troop movement was observed and can be explained only by the arrival of new troops or an internal relief.

Headquarters, 2nd Div., A.E.F.
France, 8:00 A.M., 22 April, 1918.

Telegram to G.H.Q., A.E.F., Lt. Col. W. S. Grant, for period 8:45 A.M. April 21 to 8:45 A.M., April 22, 1918.
(a) Weather: Cloudy with occasional sunshine.
(b) Enemy activity: Intermittent machine gun and rifle fire. A number of small patrols were heard and observed.
(c) Our troops active with reconnaissance patrols.
(d) Enemy artillery activity: Normal.
(e) Casualties: None reported.
(f) Enemy aeroplane and balloon activity: Below normal.

Visibility poor.

General impression of the Day: Quiet. Enemy's patrols seem very small in size as though he was collecting information as to our disposition and endeavoring to do so in a very inconspicuous manner.

G. A. HERBST,
Lieut.-Col. of Infantry,
A.G. of S., G - 3.

2d Division, A.E.F.
Second Section, G.S.

REPORT OF RECONNAISSANCE PATROLS FROM SUB-SECTOR ROYTHORS ON NIGHT OF 21-22 APRIL.

PATROLS:

Reconnaissance patrols entered MOULIN DE RELAINCOURT at a point on east side of river, found nothing to lead to information of the enemy. Patrol to SPADA left ANGLETERRE and proceeded to point 40.40 - 40.80, at the end of the stone wall running from SPADA to RELAINCOURT. Wall ended in a deep ditch filled with water and lined with bushes. Passed through hole in wall, crossed over canal lined with trees and shrubs, on a culvert and went to River CREUSE, which is also lined with trees and shrubs. River was not fordable, so patrol followed down river on west bank. Double insulated wire found running from SPADA to river CREUSE and probably from there to German lines. The wires were twisted around a branch of a tree. Bridge over river CREUSE at 40.40 - 40.40 which is shown as standing in aeroplane photo of February 28, 1918, has been destroyed, and patrol could not cross river. Patrol turned up the road from this point, toward SPADA. Insulated wire, a single strand was found along the road. Very lights were sent up from a point in SPADA directly down the road, and were followed by bursts of machine gun fire from SPADA. Another very light was sent up from point 40.17 - 40.28, which is probably the sole entrance to SPADA. The light was without doubt sent up by a sentry stationed at this entrance. Several other lights followed from the same point, and patrol returned.
War Diary of the Second Division
American Expeditionary Forces.

Date: April 22, 1918.
Location: Sectors TOULON and TROYON now occupied by the 10th French Army Corps with 2nd Division Headquarters at P. C. TOULON.

GAH/o
TELEPHONE MESSAGE 2nd DIVISION: (To G.H.Q.)
May 2, 1918, 9:00 P.M. Artillery activity slightly decreased. Machine gun activity increased.
Sub-sector LACROIX small enemy patrol succeeded in reaching our lines in rear of our front line positions early this morning.
Our casualties, one man missing and one man wounded.
Nothing further is known of the patrol or its movements.
Unusual circulation and signalling opposite sub-sector ROUVRIS tends to confirm presence of new troops in the area.
During the last three days they have registered their old barrage in front of their lines five times.

May 2.
Weather: Fair, partially cloudy.
Early this morning a German patrol penetrated our lines in C.R. SANGLER, occupied by the 23rd Inf., at strong Point COLETTE, wounded 1 man and captured 1 Artillery Corporal, 15 F.A., who had a French secret code book on his person.
General Impression of the Day: Quiet.

War Diary of the Second Division

Remarks: The 13th Field Artillery, the last organization to leave the SOMMEDIEUE area, arrived today, marching overland.

(sgd) G. A. H. ATTESTED:
G. A. H. Adjutant General, Adjutant.

---

March 16 to May 15, 1918.

Headquarters, Second Division, Am. E. F., Office of Division Surgeon,
Germany, Feb. 22, 1919.

From: Division Surgeon.
To: Commanding General, (G-3)

1. During this period the Division operated in the sector South of Verdun under the orders of the French Army and Corps, and the Medical Department functioned under and in conjunction with that of the French.

2. The Regimental and Battalion Aid Stations were established and operated in corresponding stations of the French, with which (Cont'd on next page.)
March 16 to May 15, 1918.

(Cont'd from last page)

the troops of the Second Divisions were brigaded, first by companies, then battalions, regiments, etc., until all the French posts had been taken over. The sector being an old one, on a "stable" front, our Medical Department Service found many well established 'Poste de Secours' fairly well stocked with French equipment consisting of drugs, splints, oxygen bags, dressings, etc., which were turned over for our use. Practically all were in dugouts and 'splinter proof', the majority also safe against direct hits of smaller shells. They were in most instances of sufficient size to accommodate from 4 to 12 patients in addition to the necessary sanitary personnel. Very few were securely equipped with gas curtains.

Many of the advanced stations were sufficiently forward to expose to direct view of the enemy the roads leading to them, and necessitated access in the daytime by means of tortuous trenches and evacuation along these trenches by litter. Over some roads where ambulances could not operate in the daytime, wheeled litters were used.

3. The Sanitary Train. No Headquarters of Sanitary Trains had at this time been organized, and the two animal drawn companies, (18th Field Hospital and 18th Ambulance Companies,) had not yet joined the Division. The Field Hospital Section consisted of the Headquarters and the 1st, 15th and 23rd Field Hospitals; the Ambulance Section of its Headquarters and the 1st, 15th and 23rd Ambulance Companies. These organizations arrived in this sector March 16th, 1918, and proceeded to the following stations:

Headquarters of the Sections to French Hospital (Ambulance 11/28,) RAVIGNY, Thence March 19th to French Hospital (Ambulance 9/10,) at PETIT MONTHAIRON, where they remained until the last of the Division left this sector on May 16th. Here they occupied one of the barrack buildings which had been erected as adjuncts to the French Surgical Hospital operating in the large chateau at this place.

1st Field Hospital to French Ambulance at FONTAINE BRILLANTE near SOMMEDIEN, operated by the French as a Triage. This Company assisted in operating the French Dressing Station and Operating Room at this place, and was ultimately given definite barrack space for the sick and wounded of the Division, evacuating to the French Hospitals in the immediate rear until they left the area with the Division May 18th.

Americans treated: - Gassed: 332; Wounded: 88; Injured: 64;
Sick: 554; Psychoneurosis: 3; Total: 1041.

15th Field Hospital to a French Ambulance at GENICOURT. This was operated by the French as a Triage and the Personnel of the Company were assigned duties with the French and under their supervision until they left April 2nd, and a detachment of 1 officer and 15 men from 1st Field Hospital replaced them to assist in care of the American soldiers who might be admitted thereafter. Records of the 15th Field Hosp., for this place were lost but it is estimated that about 200 Americans were treated by them at that place.

23rd Field Hospital to AMBLY, where after several days of inactivity it took over and operated a Triage Station left there by the French. This had a capacity of 100 beds, and was well equipped with convenient operating and sterilizing rooms, but as the town was frequently shelled, patients were not retained there longer than necessary. Up till time of leaving this Company treated: - Wounded: 8; Injured: 7; Sick: 141; Total: 156.

1st Ambulance Company to FONTAINE BRILLANTE, from which place (Cont'd on next page)
May 15, 1918.

(Cont'd from last page.)

it furnished Ambulance and Litter Bearer Service for left area of the sector. This served both Americans and French from the Battalion, Regimental and Ambulance Stations at the front to the Triage at this place and from this Sorting Station to rear hospitals. Ambulance Posts were maintained at BELLEVUE, MARDI GRAS, LUXEMBURG, HEDEVAUX, JOFFRE and MARQUENTERRE. March 31st the Company was moved to LA CHIFFEUR, but the same service was continued. Here it remained until it left with the Division May 16th.

15th Ambulance Company to GENICOURT, from which place Ambulance and Litter Bearer Service was furnished the front of this portion of sector. Ambulance Posts at VER LOGIS, LA CLOCHE, RUPT, MOUILLY and RANVIERES. Left the station with the Division on May 14th.

23rd Ambulance Company to TROYON for service of right wing of the sector with Ambulance Posts at LA CROIX, JEANETTE, WOMBLY, AMBLY and ROUVROIS. At the latter place an Ambulance Dressing Station was later established and operated for the purpose of instruction rather than real need. Left the sector May 12th.

4. March 18th, the two animal drawn Companies (16th Field Hospital and 16th Ambulance Co.,) joined the Division from BLOIS, but neither had transportation nor equipment.

16th Ambulance Company took station at French Hospital, (Ambulance 11/12), at RAVIGNY. March 24th the greater portion of the personnel of officers and men were distributed among the other three Ambulance Companies for training and instruction. Ten enlisted men were also attached to French Hospital, (Ambulance 4/13,) at DIEUE for ward duties and instruction and 12 men to French Hospital, (Ambulance 9/10,) at PETIT MONTHAIRON. One officer and twelve men in charge of animals, transportation and equipment, left the U.S. after the departure of the Company, and from a different Port of Embarkation. This personnel and transportation had not joined up to this time and in the latter part of April animals, harness and wagons were gradually received. Also 9 old animal drawn ambulances, which had been discarded by the 36th Division. All of these were incomplete, most of them practically unserviceable, and the parts necessary to complete them unobtainable. Complete dressing station equipment was secured from the Medical Department. Upon departure of the Division from this sector, 8 ambulances were distributed to the Artillery Regiments and Machine Gun Battalions to accompany them on the March. Company left this sector May 18th.

16th Field Hospital was sent to French Centre Hospitaliere de MAUJOUY for duty and training with and under French personnel of that hospital. April 13th one officer and twenty-two men were detached for duty at French Hospital, (Ambulance 9/10,) at PETIT MONTHAIRON, where two hospital barracks had been assigned for the sick and wounded of our Division. Here were also treated the venereal cases of the Division, who required hospitalization. While at MAUJOUY the Company received their animals, harness wagons and medical equipment.

5. April 2nd, the 15th Field Hospital left GENICOURT and took station at H.O.E. 4B, (French Evacuation Hospital,) at SOULLY. Here the men were assigned to duty in the wards for instruction and each officer assigned with a French Medical Officer. About April 20th, four large wards were assigned exclusively for American patients and cared for by the members of the Company except for one French non-commissioned officer.

(Cont'd on next page.)
May 15, 1918.

(Cont'd from last page.)

as ward master. The officers were given opportunity to take part in the operations and valuable experience was had in modern war surgery.

6. April 10th, the 23rd Field Hospital moved to FONTAINE ROUTON, a French Mobile Surgical Unit near LEMMES, and again on April 26th to MAUJOUY, relieving the 16th Field Hospital at the latter place. At these two places the officers and men worked with the French and received their first practical training in military surgical ward work.

7. On April 26th, the 16th Field Hospital turned over to the French at MAUJOUY, the 171 wounded Americans in their care and, leaving their animals and transportation, and personnel to care for them, moved to AMBLY, where they re-established the Sorting Station, (Triage,) which they operated until May 9th, when they rejoined their transportation at MAUJOUY preparatory to the departure of the Division.

At AMBLY the following cases were treated:-- Gassed: 15; Wounded: 65; Injured: 20; Sick: 40; Total: 140.

8. The services of the Litter Bearer and Dressing Station Sections of the Ambulance Companies were not required with their organizations and were consequently detailed to Regimental and Battalion Aid Stations to assist the Medical Department personnel of these organizations and to acquire as much experience as possible in the Medical Department service of the trenches. Details were also maintained at Ambulance Posts and relay litter bearer stations. All were rotated in these various services to make the instruction as general as possible, and much valuable experience was gained by these men. Some were also detailed near the front to dig graves and construct coffins and grave markers. These are not properly the duties of U.S. Ambulance Company men, but were in accordance with the French regulations regarding the duties of nearly corresponding organizations, (Branchemardier Divisionaire,) of the French Army.

Ambulance drivers had much opportunity to acquire proficiency in night driving without lights over dark and muddy roads.

9. Medical Supplies! The Division Medical Supply Depot had not accompanied the Division into this area and no medical supplies were available in the vicinity. A carload of Medical Supplies had been unloaded at the railhead and was ordered shipped back to Div. Med. Supply Depot at BOURMONT. To save it to the Division which needed it badly, it was taken over by the Director of Ambulance Companies, hauled up to Ambulance Co. Headquarters and an improvised depot established. These supplies were apportioned to the various organizations of the Division and distributed by ambulances. This service was quite instructive to ambulance drivers and orderlies in system of distribution of Medical Supplies. Supplies were replenished by requisition on the Medical Supply Depot in the rear, and the Red Cross.

10. Evacuations was through the French Sorting Stations, (Triage,) near the front at GENICOURT on the right and FONTAINE BRILLANTE on the left, and from about April 1st through our own Sorting Stations at AMBLY and FONTAINE BRILLANTE, From these stations patients were evacuated to one of the following hospitals as their condition indicated:

Class of cases : Hospital : Location : Av. distance fr.front.

Seriously wounded:

Ambulance 9/10: PETIT : 10 kilometers.

MOULHAISON:

Wounded:

Center Hospitaliere: MAUJOUY :18 kilometers.

: ANGEMONT:

: Souilly zd:

JOURNAL OF OPERATIONS

May 30, 1918.  

On May 30th the Second Division was stationed in the GISORS-
CHAUMONT-en-VEXIN area for a period of training. Several training
exercises had been held and more were contemplated. On May 30th
the Commanding General of the French Group Reserve Armies at
NOAILLES requested that the Division be moved into the BEAUVAIS
area with headquarters at BEUNIL. The movement was to be by
marching commencing the morning of May 31st and terminating in
two days, due to the fact that the Division was scattered in a
northern and southern direction and the rearmost elements needed
two days to make the march comfortably.

(Cont'd on next page.)
JOURNAL OF OPERATIONS.

May 30, 1918.

(Cont'd from last page.)

The field order directing the movement had been issued and billeting parties sent ahead. At about 5:00 P.M. a French Staff Officer came with an order that the infantry of the division wouldembus at 5:00 A.M., May 31st for the area around MEAUX, the necessary camions to transport the troops being provided by the French. The necessary orders were given to embus the infantry. At midnight a French Staff Officer arrived with the information that the remainder of the division, field artillery and the animal transportation of the infantry would move by rail, the first train leaving at 5:30 A.M. The necessary orders were issued.

JOURNAL OF OPERATIONS.

May 30, 1918.

After a night of intensive labor the necessary orders and schedules were made out and the troops embarked for MEAUX and the movement began. The necessary staff officers were sent ahead by automobile and the proper quota left behind.

At French Army Headquarters at TRILOPORG verbal instructions were given that the division would occupy the area LIZY-sur-OURQ - CROU-sur-OURQ - VENDREST with Division Headquarters at CROU-sur-OURQ. Late in the afternoon the leading elements of the infantry began to arrive. They were ordered to debus near the area MAY-en-MULTIEN northeast of MEAUX and there await concentration, as two days march from the detraining station was necessary for the artillery and the animal transportation of the infantry. The first railroad train passed through MITRY-MORY, the regulating station, at 2:30 P.M. The detraining points were DANMARTIN-en-GOBLE, NANTEUIL-le-HAUDOIN and ORMOY-VILLERS.

Hardly had the regiment debussed when the French Staff authorities urgently requested that the division take up the position between GANDELIN and MONTIGNY-l'ALLIER, both northeast of MEAUX. Reports had it that the Germans were to attack that night. Strenuous efforts were made to gather up the remaining infantry elements, and the men with 100 rounds in their belts:

(Cont'd on next page.)
JOURNAL OF OPERATIONS

May 31, 1918.

(Cont'd from last page.)

started for the designated positions. At about 8:00 P.M. a French Staff Officer met Colonel Preston Brown, the Chief of Staff on the main highway about four kilometers north of MAY-en-MULTIEN and requested that the division take up a position instead, on the line NEUFCHETTES - ROUVROIS with Division Headquarters at MAY-en-MULTIEN. Officers in cars were immediately sent out to divert troops to the new line. At 11:00 P.M. the last remaining infantry elements arrived by camion save those delayed by broken machines.

At 2:00 P.M. a French Staff Officer advised Colonel C.H. Bridges, who remained behind at CHAUMONT-en-VEXIN in charge of the train movement that 32 trains were all that could be provided and that the remaining elements would have to march overland. The railroad trains provided were sufficient to move the artillery. The transportation of the infantry had to march overland and moved out in three columns.

JOURNAL OF OPERATIONS.

June 1st.

At midnight a French Staff Officer encountered Colonel Brown, the Chief of Staff, who was on the field directing the location of the troops, and delivered an army order requiring concentration of division as an emergency around the area MONTREUIL-AUX-LIONS. The necessary orders were given and the troops made a forced march to MONTREUIL, arriving there a little after daybreak. The situation was very grave as the Germans were pushing along the CHATEAU THIERRY – PARIS road. The roads were blocked with troops and refugees streaming to the rear. The 9th Infantry in the lead was given verbal orders by a French Staff Officer (Cont'd on next page.)
to take up a position across the CHATEAU-THIERRY - PARIS road. The 23rd Infantry was to take up a position on the left of the 9th. Being at the rear of the column and the situation being somewhat tense, the 6th Marines instead took up the position near THIOLET north of the CHATEAU THIERRY - PARIS road, the 9th Infantry being south of the road. The 23rd Infantry and 5th Marines were held in reserve. Supply trucks were unloaded and extra ammunition was loaded up and pushed forward to the troops. Two days' rations were immediately placed behind the troops. A staff officer arrived with the information that 18 of the railroad trains had been cancelled and these elements were marching overland. Despatch riders were sent out directing these troops to proceed by forced marches, officers were stationed at various detraining points to accelerate the approach of the artillery, and ammunition dumps were established at LIZY-sur-COURQ. Railhead was established at MEAUX and Division Headquarters at MONTREUIL-AUX-LIONS. By evening practically all of the infantry was up. Machine guns were much needed but as they were marching overland would not arrive for two days. Their route of march was ascertained, the supply train emptied and sent after them bringing up the personnel, guns and ammunition to the front. The artillery began to arrive. The Engineer Train was advanced and tools issued and entrenching begun. At midnight the Corps Commander called with the information that a gap of nearly four kilometers existed in the line near CANDELU and that a German attack might be expected at any moment. The 23rd Infantry reinforced by a battalion of 5th Marines and the 5th Machine Gun Battalion less 2 Cos. and a Company of Engineers were roused from their sleep and made a forced march to the designated spot. A wire was laid from the Headquarters of the 164th French Division following the 23rd Infantry. The detachment was in position by daylight June 2nd. It was temporarily detached from the Second Division and placed under the command of the 43rd French Division.

The Second Division, is occupying a support position in rear of the French troops that are in the front first lines. No sector or command has yet been given the Commanding General of the Second Division. It forms part of the 21st Army Corps, French, whose Headquarters are CHARMIGNY.

June 2nd.

JOURNAL OF OPERATIONS.

The 6th Marines had several casualties among officers and men - wounded only. The 6th Machine Gun Battalion stopped the German advance several times in the morning.

The 9th Infantry had 26 wounded casualties. No further incident occurred during the day. The organizations were all engaged in consolidating positions in line. In the afternoon the artillery began to run short of 155 ammunition. A motor truck ammunition train which had arrived from GHQ was commandeered and sent 45 miles to the rear to load with ammunition. It made the round trip in 13 hours, delivering 32 truck loads of 155 ammunition to the guns.

A battalion of 5th Marines was taken from Colonel Malone commanding the 23rd Infantry to a position to LES PYRAMIDES. Two companies of the 5th Machine Gun Battalion were also taken away from the 23rd Infantry and sent to VENTELET FERME. A prisoner reports that a German Division will make an attack down the CHATEAU-THIERRY - LIZY-sur-COURCQ road. The above organizations are held as reserve against the possibility of such an attack.

JOURNAL OF OPERATIONS

The regiments were engaged in entrenching and consolidating their positions. A number of points occupied by our troops were under hostile shell fire, a good part of the day causing some casualties. The French troops in front of the division have fallen back to nearly our own line practically on our whole front. In one case a retreating French Officer gave a written order to an American officer to fall back. Naturally the order was not obeyed. No important German activity against our lines occurred during the day.

JOURNAL OF OPERATIONS.

The division continued to hold the line from LE NOUETTE inclusive on the east to the northeast and north edges of the BOIS de VEUILLY, inclusive on the west. During the night all French troops in front of the line held by the division retired through our lines. Exception: the dismounted cavalry holding the BOIS DE LA MARETTE continue to hold their position and are attached to the 3rd Brigade. The command passed to the Second Division at 8:00 A.M. The right battalion of the 9th Infantry was withdrawn during the night of June 3rd-4th and passed to division reserve. No important incidents occurred during the day. Our artillery in a number of cases brought its fire to bear on columns of vehicles, troops and stock observed entering COURCHAMPS and Bussiases. Some casualties were sustained by enemy artillery and machine gun fire and sniping.

SECRET.

See 1:80,000 Carte d' etat -Major. 2d Division, 4 June, 1918.

My dear Conner:

1. At 5. P.M. on June 3d the 2d Div. occupied a line running from south to northwest as follows:

BONNEIL (about 5½ kilometers southwest of CHATEAU THIERRY) Mt.
de Bonneil-la Nouette Forme-Western edge of Bois de la Marette-
la Thioilet-Bois de Clerembaute-Triangle-Lucy le-Bocage-Hill
142-Eastern and northern edge of Bois de Veuilly-woods about
1500 km. southwest of Veuilly la Poterie-du Rhone Ferme-
Breemoiselle. Length of this line is quite approximately 20
kilometers.

2. This line was held as follows:

Bonneil (incl)-le Thiolet (incl) 9th Inf.
Le Thioilet (excl)-Lucy le Bocage (excl) 2d Bn. 6th Marines.
Lucy le Bocage (incl)-Hill 142 (excl) 1st Bn. 6th Marines.
Hill 142 (incl)-Eastern edge Bois de Veuilly (incl) 2nd
Bn. 5th Marines.

Eastern edge Bois de Veuilly (excl)-Breemoiselle (incl)

23d Infantry.

3. It developed yesterday afternoon that a gap existed at
Hill 142, between the 5th and 6th Marines. Accordingly 2 com-
panies of the 3rd Bn. 6th Marines which was held as regimental
reserve were sent up to fill this gap.

The 2d Bn. 5th Marines, also, was not in touch with the
23d Infantry on its left. It developed that French units occu-
pied the line from the Eastern edge of Bois de Veuilly (excl)
to the road Marigny-Veuilly la Poterie, where they connected
up with the 2d Bn. 5th Marines on one side and the 23d Infantry
on the other.

4. All 3 battalions of the 9th Infantry were in line; 2
battalions and 2 cos. of the 6th Marines were in the line, while
the 3d Bn. (less 2 cos) was held as regimental reserve at CHAM-
FILION; 1 Bn. 5th Marines was in the line, 1 Bn. was at Pyramide
as Brigade Reserve, 1 Bn. was in woods 500 meters northwest of
la Langue Ferme (2½ km. east of Montreuil) as Corps Reserve; 3
bns. less 1½ cos. of 23d Inf. were in the line, with 1½ cos. at
Coulombs as regimental reserve.

5. American artillery was entering sector on afternoon of
June 3d, and taking up positions to relieve French batteries
of corresponding caliber; while other French artillery was
coming into sector as well.

(Cont'd on next page.)
June 4, 1918.

Report from Lt. Col. W.D. Grant to General Conner.
(Cont'd from last page.)

6. On the evening of June 5th an official report came in that the Germans had captured Hill 123 (1 kilometer southwest of Veuilly la Poterie) north of Malones right. Later Captain Claude (French officer on duty with 23d Inf) reported that prisoners captured had stated the Germans had been ordered to take Hill 123 and Marigny at all costs within 24 hours. (Hour when this order was given them not known).

7. During the night our artillery, as well as the French did considerable firing. A report from Malone dated 2:55 A.M. June 4, stated that in view of any enemy movement from Hautvegueses our artillery concentrated its fire upon the area over which the attack was to be made. German artillery replied at 2:35 A.M. and put down a heavy barrage for a few minutes at approximately the junction of the Marines and 23d Inf. (These two regiments had evidently extended their front to get in touch with each other, as had been contemplated when it was discovered that French units were between them). Malone also states;"If any attack was launched by hostile infantry, it did not reach our lines. The French line and our front remain intact."

8. At 12:15 P.M. as I write this, no further information of any attacks have been received, except that Lt. Hunt, Liaison Officer at Hq. 21st Corps, states that French have retaken Hill 123 and hold it.

9. Today Gen. Bundy takes command of a sector bounded as shown on map by blue arrows. Tonight the 23d Inf. is to be relieved by a French Division and will withdraw to take position as Division Reserve; and on the night of June 5-6th the 2d Bn. 5th Marines will be withdrawn and the limits of Gen. Bundy's sector on the left will be as shown by red arrow. This will give the 2d Division an opportunity to distribute in depth.

10. Copy of order for occupation of sector between blue arrows is attached.

11. It should be understood that in front of our line as indicated in part 1, herewith there has been until today a French line engaged with the enemy from which advanced line small groups of French have been gradually filtering back. Upon adjustment of Gen. Bundy's sector today, this French line is to be wholly withdrawn and its elements regrouped in rear. This operation is in progress.

11½. Our troops have already suffered between 200 and 300 casualties.

12. At this hour, 4:10 P.M. there is no indication of any unusual activity on the front of 2d Division.

(signed) W. D. Grant
Lt. Colonel, G.S.

June 5, 1918.

HEADQUARTERS, SECOND DIVISION (REGULAR)
AMERICAN EXPEDITIONARY FORCES
FRANCE, 5 June '18.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M. June 4th - to 8:00 P.M. June 5th, 1918.

1. GENERAL ASPECTS OF THE DAY:
QUIET, except for increased artillery activity and abnormal enemy aviation.

11. REPORT OF EVENTS:
At 8:20 P.M., small enemy attack against HILL 142, held by our troops, broke down under artillery fire. One company of 8th Marines, considerably annoyed by a German machine gun, sent out a patrol of 12 men about 1:00 P.M., killed all the Germans and brought back the machine gun.

(Cont'd on next page.)
June 5, 1918.

REPORT OF OPERATIONS - June 4th - June 5th, 1918. (8:00 P.M.)
(Cont'd from last page.)

A patrol of one officer and two men of the 6th Marines, sent from LUCY-le-BOCAGE at 9:00 P.M., found the BOIS-de-BELLEEAU and the high ground south of TORCY occupied by Germans. Strength unknown. Heavy wagon heard moving through the northern part of BOIS-de-BELLEEAU.

III (a) Between 5:00 & 6:00 P.M., intermittent fire with 150's on the woods west of LA LANGUE PERME. During the day, intermittent fire against LUCY with 105's and 150's. Location of hostile batteries not definitely determined. Between 9:00 and 11:30 P.M. about 500 - 150's were dropped on BOIS-de-VEUILLY. Between 6:15 and 7:00 P.M., 200 - 105's were dropped on HILL 142. Location of hostile batteries not definitely fixed.

(b) 89 flights of enemy aeroplanes made over our lines during the day. Two enemy planes brought down by anti-aircraft fire. 10 hostile balloons were in observation at different points.

(c) Considerable circulation throughout the day from BORNE BOIS and BOURESCHES. Between 12:00 noon and 5:00 P.M., continuous movement of enemy troops from COURCHAMPS towards LUCY-CLIGNON and BUSSIARES. A number of wagon trains passed through BUSSIARES through the day moving in both directions.

One officer and 19 men gassed as result of gas bombardment, at LUCY.

PRESTON BROWN, Colonel, General Staff, Chief of Staff.

June 5th. JOURNAL OF OPERATIONS.

The line occupied and held by the division was modified. It now extends from the southeast corner of the BOIS DE LA MARETTE through the BOIS DE CLEREMBAUTS, Triangle, LUCY LE BOCAGE, wood northwest of LUCY LE BOCAGE - Hill 142 a point on CHAMPILLON - BUSSIARES road 800 metres north of CHAMPILLON, all inclusive. During the night of the 4th-5th the 33rd Infantry and two companies of the 5th Machine Gun Battalion, and Company "B" of the 2nd Engineers were relieved and returned by marching to join the division, going into reserve. The entire division is now concentrated, every element accounted for. The artillery is in position to fire upon the enemy and support the infantry. A number of local attacks were repulsed by the 4th Brigade during the day. Our losses were slight, accurate data not yet received.

HEADQUARTERS, SECOND DIVISION (REGULAR)
AMERICAN EXPEDITIONARY FORCES.
FRANCE, 7th June '18.
REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M., June 5, to 8:00 P.M., June 6, 1918.

I. GENERAL ASPECTS OF THE DAY:
Very active on the part of the 2nd Division, U.S.

II. REPORT OF EVENTS:
The 4th Brigade, 2nd Division, in conjunction with the
167th D.I. (French) attacked the heights immediately
south of BUSSIARES at 5:00 A.M. The attack was success-
ful and by 7:00 A.M. the position was being consolidated.
Twenty-two (22) prisoners passed through Division Head-
quarters. A number of wounded prisoners were evacuated.
Our casualties light.
At 5:00 P.M., the 4th Brigade attacked on the line
BOURESCHES-TOROY. Up to 8:00 P.M., the fight was still
in progress. Considerable opposition was met with in the
BOIS-de-BELLEEAU. Twenty-four (24) German prisoners were
sent to the rear. Our casualties not yet known.

III.a. The villages of LUCY-le-SOCAGE, CHAMPillon and MONTGIV-
RAULT were under heavy bombardment in the forenoon. The
BOIS-de-la-MARETTE was heavily bombarded during the night
of June 5-6 with high explosive shells and some Yperite
gas. Intermittent bombardment of roads throughout the
day in the forward zone. Calibre of shells recognized
77's, 150's and 210's.

b. ACTIVITY OF ENEMY AVIATION:
Enemy acroplanes while fairly active, were considerably
less active than the preceding day.

c. MISCELLANEOUS:
A number of machine guns were taken from the enemy.
Exact number not known.
A considerable number of motor drawn vehicles was seen
on the road from NEULLY to LATILLY at 4:00 P.M.
The casualties in the two actions were quite heavy. No
reports as to the number have been received.

PRESTON BROWN
Colonel, General Staff.
Chief of Staff.
June 6th, 1918.

JOURNAL OF OPERATIONS.

At 5:00 A.M. the 4th Brigade in conjunction with the 167th D.I. French attacked the heights from the south of BUSSIARES. The attack was successful and by 7:00 A.M. the position was being consolidated. 22 prisoners passed through Division Headquarters. A number of wounded prisoners were evacuated. Our casualties light. Exact accounts not yet received.

Villages of LUCY LE BOCAGE, CHAMPILLON and MONTGIVRAULT were under heavy bombardment in the forenoon. Intermittent bombardment of points throughout the day in the forward zone.

At 5:00 P.M. the 4th Brigade attacked on the line BOURESCHES - TORCY. BOURESCHES was captured. Considerable opposition was met with in the BOIS DE BELLEEAU and the attack stopped after advancing several hundred yards. The wood has a very heavy undergrowth. There are many rock formations with large boulders offering good cover and retreats for machine guns. Numerous machine gun nests were encountered which stopped the advance. 24 prisoners were taken and a number of machine guns. Our casualties not yet known. The fighting continued throughout the night. The combat extended towards our right in front of the 3rd Brigade. The 23rd Infantry and 9th Infantry were both involved. Their casualties are reported as approximately 21 officers, 364 men, including gassed and slightly wounded. During the night of the 5th and 6th a battalion of the 5th Marines on the extreme left of the division was withdrawn thereby shortening the front of the division. It was replaced by a regiment from the 164th French Division.

Annex Orders, notes and sketches.

Forage on hand: 3 days.

Strength of command, present and absent: 1209 Officers, 26693 men.
Strength of command in present area: 1069 25761
Available for duty: 1060 25639

Weather: Fair.
Remarks: At 5:00 A.M. the 4th Brigade in conjunction with 167th
D.I. French, attacked the heights south of BUSSIARES. The
attack was successful and by 7:00 A.M. the position was being
consolidated. 22 prisoners passed through Division Headquarters.
A number of wounded prisoners were evacuated. Our Casualties
light. Exact accounts not yet received. 76 Casualties passed
thru dressing stations and were evacuated thru MEAUX. Not in-
cluded in above health report.

HEADQUARTERS SECOND DIVISION (REGULAR)  
AMERICAN EXPEDITIONARY FORCES.  
FRANCE, 8 June 1918.

REPORT OF OPERATIONS FOR THE PERIOD  
8:00 P.M. June 6 – to 8:00 P.M. June 7, 1918.

1. GENERAL ASPECTS OF THE DAY:  
Increased artillery and infantry activity of the enemy.

2. REPORT OF EVENTS:
  The Germans attacked the 23rd Infantry at 10:00 P.M.  
  but were driven back with losses. Our losses considerable.  
  Throughout the day the sector was comparatively calm  
  except for intermittent artillery fire.

3. (a) Enemy artillery activity was considerably increased,  
  particularly in the back area where roads and crossroads  
  were intermittently heavily shelled. Calibres recognized-  
  77's and 150's.

(b) Enemy aviation somewhat decreased.

(c) In the activity of this division of June 6-7 our  
  losses in killed and wounded are approximately —  
  30 officers killed and wounded, 900 men killed and wounded.

  These figures are only approximate. Accurate data will  
  be furnished as soon as available.

June 7th.  
JOURNAL OF OPERATIONS.

The combat in the BOIS DE BELLEAU continued throughout the  
day. Rifle and machine gun fire and sniping. Hostile artillery  
bombarded villages and points held by our troops. Our artillery  
retaliated with a heavy fire on the north half of BOIS DE  
BELLEAU, on crossroads and on villages believed to be occupied  
by German troops. During the night a German counter attack on  
BOURESCHE was repulsed. The left of the 23rd Infantry was  
involved in the fight and two companies suffered heavy losses.

HEADQUARTERS SECOND DIVISION (REGULAR)
AMERICAN EXPEDITIONARY FORCES,
FRANCE, 9 June 18.

REPORT OF OPERATIONS FOR THE PERIOD
6:00 P.M. June 7 - to 8:00 P.M. June 8, 1918.
G-3.

I. GENERAL ASPECTS OF THE DAY:

Very active over the entire divisional sector.

II. REPORT OF EVENTS:

At 12:15 A.M., following a heavy barrage, the enemy attacked the 23rd Infantry along its entire front. This attack was repulsed with serious losses to the enemy and very slight losses to our own troops. At 12-30, another attack was made against the 3rd Brigade, but this time it was landed against the 8th Infantry. This attack was repulsed by our machine guns and rifle fire, also with heavy losses to the enemy. The losses are estimated at over 100 casualties to the enemy and only six to our own troops. It is believed that this attack was the tail end of the attack against the 23rd Infantry. At 1-25 A.M., an enemy attack, accompanied by machine gun and rifle fire, was launched against our troops in BOURRESCHES. This town had been reinforced early in the evening with machine guns and the attack was repulsed with considerable losses to the enemy. Our losses are not known accurately as yet, but were not heavy.

III.a. BOIS-de-BELLEEAU was shelled by our artillery intermittently during the entire night, increasing towards 4-00 A.M. Our troops advanced some distance into the southern edge of BOIS-de-BELLEEAU but were again held up by machine gun fire from nests in the woods and rocks. Further artillery assistance requested and delivered. Heavy enemy shelling along the entire front of the 23rd Infantry at 5-25 P.M. with 75's, 105's, 150's and 210's. Battalion fire delivered by our artillery.

b. No enemy planes reported. Usual number of Drachens.
c. Enemy prisoner taken near BOURRESCHES early this morning. Reports that the German troops had orders to hold the lines of railroad north of BOURRESCHES at all cost. 925 replacements arrived in the Division today. Division Commander directed change of P.C. of 3rd Brigade from LA LANGUE FERME to DOMPTIN as soon as practicable. Authority requested and obtained for the Corps Commander to exchange the Corps Reserve (1 Battalion 6th Marines) with a battalion in the line.

Approximately 100 men and officers were killed and wounded during this period of time just closed.

PRESTON BROWN,
Colonel, General Staff, Chief of Staff.
June 8th. JOURNAL OF OPERATIONS.

At 12:30 A.M. a German attack was made against the 23rd Infantry preceded by artillery fire. They employed automatic rifles or light machine guns with their infantry. The attack was completely checked about 400 yards from our trenches by our artillery and rifle fire. Enemy losses believed to be heavy. The 9th Infantry was also involved in an attack and caused a good many losses to the enemy. At 1:25 A.M. a German attack with machine guns and rifle fire and accompanied by artillery fire was made against the 4th Brigade holding BOURESCHE. It was repulsed with considerable losses. Intermitent artillery fire was placed by us on the BOIS DE BELLEAU throughout the night, increasing in intensity towards 4:00 A.M. At 4:30 A.M. the right of the 4th Brigade attacked the enemy in the southern part of the woods but made little progress. The fighting continued throughout the day with little advantage to either side. The losses of the division for the last two days were approximately close to 1,000 officers and men, killed wounded and missing, but no reports have yet been received.

Annex orders and notes.

American Expeditionary Forces,
France, 10 June, 1918.

REPORT OF OPERATIONS FOR THE PERIOD 8:00 P.M., June 8 to
6:00 F.M., June 9, 1918.

1. General aspects of the day: Very active on the entire
divisional sector.

2. Report of events: Between 11:30 P.M. and midnight at-
tack on BOURESCHES repulsed with loss. Intermittent shelling
of DES MARES FERME throughout the day and night. Between 3:00
and 4:00 A.M. heavy artillery barrage was laid on the eastern
edge of BOIS DE LA MARETTE and our lines on the extreme right
of our sector. Considerable intermittent shelling of a number
of parts in the sector of the 2nd Division, U.S.

3. (a) Calibre of shells ranged from 77's to 210's.
(b) Enemy air activity somewhat decreased; twenty-one (21)
reconnaissance planes observed over our lines during the day.
Several balloons were also observed a large part of the day.
(c) Appreciable movement of men in northern part of VAUX.
Continuous movement of large and small groups in and around
COURCHAMPS. A company of infantry was observed coming out of
the woods east of LA REMISE at 2:10 P.M. Between 6:00 and 9:00
A.M. movement of small groups between HILL 201 and BOIS DES
ROCHETS was noted. Steady movement of vehicles and automo-
biles on all roads between MONTHERS, COURCHAMPS, LOY-CLIGNON
and BONNES throughout the day.
(d) Casualties: 9 killed; 268 men wounded (all grades).

PRESTON BROWN
Colonel, General Staff
Chief of Staff.
June 9th.

JOURNAL OF OPERATIONS

The enemy was active throughout the night and a good part of the day with rifle, machine gun fire and sniping and intermittent shelling of various parts of our line. The BOIS DE BELLEAU was intermittently shelled by our artillery during the night. Our troops advanced some distance into the southern end of the woods but were again held up by machine gun fire from nests and rocks. No change in the position of our lines.

Annex Orders, notes and sketches.

REPORT OF OPERATIONS FOR THE PERIOD 8:00 P.M., June 9 to 8:00 P.M., June 10, 1918.

1. General aspects of the day: Normal activity under existing conditions.

2. Report of events: At 4:30 A.M. after a thorough artillery preparation the 4th Brigade attacked the enemy in the BOIS DE BELLEAU. It's objective, approximately an east and west line through HILL 189 was reached by 5:10 A.M. and since that hour is being consolidated. So far as known no prisoners were taken, but two large Minenwerfers were captured and a number of light machine guns. Our losses were light.

(Cont'd on next page)
June 10, 1918.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M., June 9 to 8:00 P.M., June 10, 1918.

(Cont'd from last page)

A patrol of the 23rd Infantry captured a German machine gun in front of its position.

3. (a) Increase in enemy artillery harassing fire. About 3800 shells of various calibres were placed on right half of our sector during the night. About 3000 shells were fired against the left half of our sector.

(b) Enemy air activity below normal due to poor visibility.

(c) Two large Minenwerfers and a number of machine guns were captured by our troops.

Five companies of infantry were observed moving south into the town of COURCHAMPS from the north at about 4:00 P.M. Considerable concentration of troops were noted in the towns of LICY-CLIGNON - TORCY - BELLEAU and BUSSIARES. It is not determined whether they are for relief or for attack.

(d) Casualties for the division: About 90 of all grades. No definite reports have been received.

PRESTON BROWN,
Colonel, General Staff,
Chief of Staff.

France, 11th June '18.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M. to 8:00 P.M., --- June 11, 1918.

I. GENERAL ASPECTS OF THE DAY:
Very active on the entire Divisional Sector and especially so on the 4th Brigade Sector.

II. REPORT OF EVENTS:
The enemy, after a heavy artillery preparation, made an attack on BOURESCHES at 5:30 A.M., but was repulsed by our artillery barrage and did not reach our lines. Heavy losses inflicted upon the enemy by our artillery while he was massing for this attack. At 4:30 A.M. after artillery preparation, and preceded by a rolling barrage, our troops attacked the northern edge of BOIS-de-BELLEAU and captured the entire woods. The attack was a complete success in every respect. Heavy losses were inflicted upon the enemy in killed and wounded. We have captured more than 400 prisoners and much material including 35 machine guns, 4 trench mortars and trench mortar ammunition. Quantities of rifle ammunition and equipment were also captured. From the number of prisoners taken, the enemy was evidently making a relief of BOIS-de-BELLEAU when our artillery barrage caught his new relief in the act of relieving the old one.

III. (a) Heavy shelling on DOMPTIN and intermittent shelling along the line of 3rd Brigade during the night --- 77's, 105's, 150's and 210's. Some heavy shells on BEIZU-le-GUERY. Shelling of 3rd Brigade front line with 150's at 1 P.M.
(b) Enemy air activity somewhat decreased. Usual observation balloons were up most of the day.
(c) Concentrations of troops, in the vicinity of TORCY, COURCHAMPS, and BUSSIARES at 9:00 P.M. Artillery movements in vicinity of COURCHAMPS at 8:30 P.M. Steady movement of vehicles in this vicinity during the early portion of the night. The 2nd Division received twenty-two officers and 900 enlisted men replacements during the day and these were immediately sent to join the reserve of different units.
(d) Casualties:
200 wounded officers and men, all grades, have been evacuated up to 7:30 P.M. as a result of our attack this morning. No report as to number killed has been received up to the present time, but they are very light considering the operation carried out.

PRESTON BROWN,
Colonel, General Staff,
Chief of Staff.

AMERICAN EXPEDITIONARY FORCES.

Franco, 12th June '18.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M., June 11 - to - 8:00 P.M. June 12, 1918.

I.

Considerable activity by our infantry particularly in the left or western half of the division sector.

(Cont'd on next page.)
June 12th.

JOURNAL OF OPERATIONS.

During the night of June 11-12 our artillery heavily shelled the enemy's back areas in order to prevent and break up reported concentration of enemy troops in the vicinity of TORCY, MONTHERES, HILL 128 and LA GONETRIE FERME. It was reported that a relief was to come off during the night.

In cleaning up the BOIS DE BELLEAU in the attack of June 11th small enemy groups managed to conceal themselves in the thick woods and rocky formations. These small groups had, apparently, concentrated in the western edge of BOIS DE BELLEAU on the slopes of HILL 169. In fact, a prisoner stated, late in the afternoon of June 11th, that a part of the woods was still held by some Germans with machine guns. In the afternoon of June 12th, this part of the woods was attacked with complete success. A number of machine guns and minnenwerfers were taken. Many of the enemy were killed. 1 officer and 50 men were taken prisoners, some of whom surrendered under a flag of truce. It is now believed that the BOIS DE BELLEAU has been completely cleaned out of enemy detachments. Our losses are approximately 50 wounded, generally slight wounds.

During the afternoon of June 12th, a group of about 400 mounted Germans were observed near the woods south of ETREPILLY, by a battalion of the 15th F.A., U.S. Fire was immediately brought to bear upon this group with the result of breaking up and completely dispersing the detachment and causing many losses.

III a. The region of LUCY-le-BOCAGE, the BOIS-de-BELLEAU, BOURESCHES and the PARIS road was heavily bombarded by German artillery. The shells ranged in calibres from 77's to 310's. The front of the 3rd Brigade was also intermittently shelled with shrapnel during the afternoon.

During the night our artillery heavily shelled the enemy's back areas in order to prevent and break up reported concentrations in the vicinity of TORCY, MONTHERES, HILL 128 and LA GONETRIE FERME.

b. Considerable increase in the activity of enemy aviation was noted, many planes making reconnaissance flights. A number of balloons were also in observation.

c. A number of machine guns and minnenwerfers were captured, accurate accounts not yet received.

One battalion of infantry, in column of twos, was observed entering BELLEAU from the northeast at 11:30 A.M. Considerable movement of men was seen in the ravine northeast of BOURESCHES.

Our losses were approximately 60 killed and wounded.

PRESTON BROWN,
Colonel, General Staff,
Chief of Staff. (sgd) PB
JOURNAL OF OPERATIONS.

June 12, 1918.

(Cont'd from last page.)

took place last night. This is only problematical. During the afternoon (June 12) that part of the woods where the Germans were known to be was attacked. The operation was successful. A number of machine guns and Minenwerfer were taken. Many of the enemy were killed. One officer and fifty men were taken prisoners, some of whom surrendered under a flag of truce. The region LUCY-10-BOCAGE, BOIS DE BELLEAU, BOURESCHES and the CHATEAU THIRY, MONTREUIL-AUX-LIGNE was heavily shelled by German artillery at odd times during the day and night. The front of the 3rd Brigade was also intermittently shelled with shrapnel during the afternoon.

The 6th Infantry made a redistribution of the two battalions in the front line. The second battalion now holds the extreme right of the division with the 1st battalion on its left.

Two companies of the 2nd Battalion, 2nd Engineers are now acting as infantry and hold the position north of the western half of the BOIS DE BELLEAU.

The Commanding Officer of the 2nd Battalion, 15th Field Artillery was regulating some of his batteries for interdiction fire in the afternoon when he observed a large group of mounted Germans approximately 400, come into view near the wood south of ETREPILLY. Fire was immediately directed on this group with the result of breaking up and completely dispersing it and apparently causing a good many casualties.

A German plane with French colors dropped a bomb between LUCY-10-BOCAGE and LA VOIE du CHATEL at about 6:00 P.M. This was observed by an Aide from 4th Brigade Headquarters.

Outside of the cleaning up operations in BOIS DE BELLEAU of the 4th Brigade the sector was comparatively quiet up to midnight. Intermittent shelling of the front line positions and a number of points in the back areas by enemy artillery with H.E. and some gas shells. Our casualties for the 24 hours are approximately 60 killed, wounded and missing. No definite reports yet received.

Annex: Orders, notes and sketches.

Headquarters, Second Division (Regular)
American Expeditionary Forces,
France, June 13, 1918.

REPORT OF OPERATIONS FOR THE PERIOD 8 P.M. June 12 to 8 P.M.
June 13 '18.

1. General Aspects of the Day: Great activity of our infantry particularly in the left or western half of the division sector, strongly supported by our artillery.

2. Report of events: At 1:30 A.M., June 13, an attack was made upon the northwestern edge of the BOIS-de-BELLEAU which was easily repulsed. At about 3:30 A.M. after an intense artillery barrage including irritating gas the enemy launched a heavy attack on the line BOURESCHELS-BELLEAU aiming particularly at the village of BOURESCHELS and the eastern edge of the BOIS-de-BELLEAU. Our artillery put down a heavy barrage in the enemy's rear. This struggle lasted until about 5:30 A.M. when the attack was thoroughly broken up with very severe losses to the attacking troops. At one time the enemy made an entrance into the town, but was thrown out with heavy losses. The attack was not successful at any point and our lines remained intact. The village of BOURESCHELS was repeatedly reported as being in German possession, but a message at 5:45 A.M. from the Commanding Officer stated "Have not given up one inch of ground." 15 dead Germans in the town and 40 in the wheatfield just outside were counted.

3. (a) Enemy artillery was more active last night than on any previous occasion. The entire division front line and numerous points in the rear area were heavily shelled throughout the night and part of the day with calibres ranging from 77's to 210's.

(b) Increased activity of enemy aviation. At one time ten aeroplanes were in the air. A total of 37 aeroplanes were counted throughout the day. Seven balloons were up at various times.

Attention G 3 HAEF

Considerable activity by our infantry particularly in the left or western half of the Division sector including up the Bois-de-Belleau in the attack of June 11, small enemy groups managed to conceal themselves in the thick wood and rocky formations these small groups had apparently concealed in the western end of the Bois-de-Belleau on the step of hill 169 in fact a person stated late in the afternoon of June 11 that a part of the woods was still held by some Germans with machine guns in the afternoon of June 12 this part of wood was attacked with complete success. A number of machine guns and minenwerfers were taken many of the men killed one officer and 50 men were taken prisoners some whom surrendered under a flag of truce it is now believed that the Bois-de-Belleau has been completely cleaned out of enemy detachments our losses are apparently 50 wounded generally slight wounds 550 PM the afternoon of June 12 A group of about 400 machine guns were observed in near the wood south of Etrepilly by a battalion of the 10th F.A. US fire was immediately brought to bear upon this group with the result of breaking and completely dispersing the detachment losses 55 the region of Lucy-le-Bocage the Bois-de-Belleau Bourcaches and the Paris road was heavily bombarded by German Artillery the shots ranged in calibers from 77's to 210's the front of the third Brigade was also intermediately shelled with shrapnel during the afternoon during the night our artillery heavily shelled the enemy's back areas in order to prevent and break up reported concentrations in the vicinity of Torcy Monthiers Hill. 128 and La-Gonetrie-Ferme considerable increasing in the vicinity of enemy aviation was noted many planes making reconnaissance flights a number of balloons were also in observation a number of machine guns and minenwerfers were captured accurate accounts not yet reached one battalion of infantry in column of taws were observed entering Belleau from the northeast at 11:30 A.M. considerable movement of men was seen in the Ravino northeast of

June 13, 1918. JOURNAL OF OPERATIONS.

At 1:30 A.M. an enemy attack was made on the northwestern edge of the BOIS-de-BELLEEAU, which was easily repulsed. At 3:30 A.M. after an intense artillery barrage including irritating gas the Germans launched a heavy attack on the line BOURESCHE-BELLEEAU aiming particularly at the Village of BOURESCHE and the eastern edge of the BOIS-de-BELLEEAU. Our artillery put down a heavy barrage in the enemy's rear. The fighting lasted until 5:30 A.M. when the attack was thoroughly broken up with severe losses to the attacking troops. At one time the Germans made entrance into the town, but were thrown out with considerable losses. The attack was not successful at any point and our lines remained intact. The Village of BOURESCHE was repeatedly reported as being in German possession, but a message at 5:45 A.M. from the Commanding Officer, Major Shearer, stated "Have not given up one inch of ground." 15 dead Germans in the town and 40 in a wheatfield just outside of the town have been counted. No further attempt by the Germans was made during the day.

1 Officer and 42 men were brought in as prisoners. Some of the latter having surrendered under a flag of truce. These were captured in the BOIS-de-BELLEEAU.

No reports of casualties have yet been received from Regimental Commanders. The Division Surgeon reports that up to 7:30 A.M. about 250 wounded passed through our dressing stations due to last night's operations. No report of dead and missing for any of the fighting since June 1st has yet been received. The regiments, particularly those of the 4th Brigade, have been marching, fighting and digging without intermission since the night of May 31st - June 1st, and it can be readily seen that the opportunities and hours for rendering reports were few.

From 10:00 P.M. until after midnight German artillery subjected a number of points in our rear area to intermittent gas shelling. The artillery along our entire front was much below normal.

During the night June 13th-14th the front of the 4th Brigade sector was diminished and that of the 3rd Brigade correspondingly increased by the latter side-slip its regiments towards the left or west.

June 14, 1918.

HEADQUARTERS, SECOND DIVISION (REGULAR)
AMERICAN EXPEDITIONARY FORCES.
FRANCE, 14th June '18.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M. June 13 - to - 3:00 P.M. June 14, 1918.

I. GENERAL ASPECTS OF THE DAY:
Quiet, except for heavy gas bombardment by enemy artillery.

II. REPORT OF EVENTS:

Our infantry was active in patrolling but without incident.

III a. Continuous harassing fire from enemy artillery on front lines and rear, including a great number of gas shells.
Calibre of shells used ranged from 77's to 180's.
b. Enemy air service very active, with over 30 reconnaissance planes and six balloons.
c. Continuous movement of small enemy groups were observed around the BOIS-de-BOURESCHES - COURCHAMPS and LUCY-CLIGNON. Numerous squads of men moving south along the unimproved road from ETRÉPILLY. Numerous small groups observed throughout the day on the COURCHAMPS-BONNES and MONTHIERS-BONNES-FRIEZ roads.
Considerable movement of men late in the evening in the vicinity of GEMETRIE, SEMES and the adjacent woods. During the afternoon troops were seen entering the towns of TORCY and BELLÉAU in motor trucks.

Up to 12:00 Noon, 420 casualties were reported; some caused by artillery, but the greater number due to gas poisoning.

2,385 casualties passed through our dressing station and were evacuated from MÉAUX for the period June 8 to 6:00 A.M. June 13. Prisoners numbering 5 officers and 506 men have been taken since June 8. 56 of these were casualties passing through our Field Hospital Section with 2 deaths.

No change in the position of our line.

PRESTON BROWN,
Colonel, General Staff,
Chief of Staff.

---

June 14, 1918. JOURNAL OF OPERATIONS.

During the right of June 13-14 and continuing throughout the day the entire front line and many points in the back area of the Division sector were intermittently shelled with gas, intermixed with some high-explosive shells. The contraction of the 4th Brigade sector, and extension of the 3rd Brigade taking over part of the 4th Brigade sector by side-slip its regiments to the left or west, was accomplished during the night without incident.

The 3rd Brigade now holds line from a point 600 metres north of MONNEAUX west of the MONNEAUX-VAUX road, through the BOIS de CLERMENBANTS, TRIANGLE and BOURESCHES, inclusive; eastern boundary the eastern boundary of the Division. Western boundary a line running southwest from BOURESCHES railroad station - brook just south of BOIS-de-BELLÉAU to a point where this brook crosses the LUCY-le-BOCAGE - COUPRU road - thence south along the eastern end of the MON BLANCHE woods to point 208 on the PARIS-METZ road (to 3rd Brigade.)

The 4th Brigade holds from BOURESCHES exclusive eastern and northern edges of the BOIS-de-BELLÉAU - woods 1800 metres north of LUCY-le-BOCAGE - the ridge running north from HILL 143 to the small woods 1800 metres northeast of CHAMPILLY and just west of the stream, inclusive.

The gas shelling was with YPERITE or mustard gas. Up to 11:00 P.M. reports received indicated the evacuation of 700 gas cases and the evacuation not completed; some of the cases very severe.

The gas bombardment along the entire front and the back area still continues.

(Cont'd on next page.)
(Cont'd from last page)

On account of the gas in the BOIS de BELLEAU the eastern edge of these woods was held by a thin line of machine guns, the remainder of the battalion being withdrawn to the vicinity of Hill 181 which was free of gas.

There was no infantry activity during the 24 hours by the Germans, and ours consisted only in patrol work. The activity of our artillery was confined to harassing fire on the enemy's artillery and infantry. Some gas shells were fired late in the evening.

Annex: Orders, notes and sketches.

HEADQUARTERS, SECOND DIVISION (REGULAR)
AMERICAN EXPEDITIONARY FORCES
France, 15th June '18.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M. June 14 -- to -- 8:00 P.M. June 15, 1918.

I. GENERAL ASPECTS OF THE DAY:
Quiet, except for continued harassing fire of enemy artiller which included many gas shells.

II. REPORT OF EVENTS:
Our infantry active in patrol work. One of our patrols in front of the right of our sector killed enemy outpost of two men.

III.a. Enemy artillery continued its harassing fire on our front lines and numerous parts in our rear area, making much use of gas shells. This bombardment is apparently not a preparation for an attack but is made with the object of causing losses. The calibres used range from 77's to 150's.

b. Enemy aeroplanes continued their activity with numerous reconnaissances flights. Marked increase in balloon activity was noted, at one time eight balloons being in observation.
c. Continuous circulation of men on HILL 209 just north of Etrepilly was observed during the day. On the unimproved road south of Etrepilly leading to HILL 225 numerous squads were observed moving in both directions. On the improved road between the same points numerous caisons moved south. Continuous cir- culation throughout the day on the BELLEAU-EPAUX road and on the unimproved road north from MONTHIERES.

Casualties for the period: 793 of whom
745 were due to gas,
16 shell shock,
10 gassed and wounded, and
22 sick.

The 420 casualties reported on June 14th included in the 793 mentioned above.

During the night of June 14-15, on account of gas, the eastern edge of BOIS-de-BELLEAU was held by a thin line of infantry and machine guns, most of the infantry being with- drawn to the vicinity of HILL 181, which was clear of gas.

No change in the position of our line.

PRESTON BROWN,
Colonel, General Staff,
Chief of Staff.

June 15, 1918.  

JOURNAL OF OPERATIONS.

The shelling of our front line and numerous points of back area with gas and H.E. shells continued, but with decreased intensity. The casualties due to this shelling up to 6:00 A.M., June 15th, was 771.

The day passed without unusual incident. The 7th Infantry belonging to the 3rd Division was temporarily placed at the disposition of the Commanding General, 2nd Division, for a short period.

A half-hearted attack against the front BOURESCHE - BOIS-de-BELLEAU was easily broken up and repulsed at about 11:00 P.M.

HEADQUARTERS SECOND DIVISION (REGULAR) AMERICAN EXPEDITIONARY FORCES
FRANCE, June 16, 1918.

REPORT OF OPERATIONS FOR THE PERIOD
8:00 P.M. June 15 — to — 8:00 P.M. June 16, 1918.

I. GENERAL ASPECTS OF THE DAY:
Quiet, except for significant increase in enemy aerial activity.

II. REPORT OF EVENTS:
A. At 11:00 P.M. an attack on the line BOURESCHES-BOIS-DE-BELLEAU, preceded by a barrage placed between BOURESCHES and the BOIS-DE-BELLEAU, was easily repulsed by our infantry aided by our artillery. Another half-hearted attack against the north edge of the BOIS-DE-BELLEAU at 4:45 A.M. was driven back by our infantry fire. The enemy was otherwise active with scattered rifle fire and intermittent machine gun fire on various points of our front. Our troops were active with ambush and reconnaissance patrols, but without incident.

III. a. In addition to the barrage put down at 11:00 P.M. enemy artillery continued its harassing fire on our front lines and back area using much gas. The calibres ranged from 77's to 210's.
   b. Enemy aeroplanes maintained a continuous reconnaissance particularly over our forward zone. Several large patrols were noted. Enemy balloon service very active, nine balloons being in observation at one time during the morning.
   c. Constant movement of small groups on the two roads south of ÉTREPIILLY toward HILL 209 moving in both directions. Numerous small groups were observed on main road from GIVRY to ÉPAAUX.
   380 casualties were evacuated through our dressing station.

No report of the dead received.

During the night the 3rd Battalion, 6th Marines which occupied the nose running north of HILL 142 was relieved by a battalion of the 174th Regiment (French) without incident. The 2nd Battalion, 5th Marines and 2nd Battalion, 6th Marines were relieved by the 1st Battalion, 7th Infantry, without incident.

The left or western boundary of the 2nd Division is now fixed by the line LICY-CLIGNON, HILL 126 (West of TORCY), stream north-south passing to the east of HILL 142, CHAMPILLON - all of these points belonging to the 167th Division - then the previous limits. This went into effect at 8:00 P.M. today. Otherwise there is no change in the position of our lines.

PRESTON BROWN,
GAH/o

OLONEL, General Staff, Chief of Staff.
June 16, 1918

JOURNAL OF OPERATIONS.

During the night the 3rd Battalion, 6th Marines, which occupied the nose running north of HILL 142, was relieved by a battalion of the 174th Regiment (French) belonging to the 167th Division, without incident. The battalion took station in the woods about 1 kilometer west of PYRAMIDE.

The 2nd Battalion, 5th Marines and 2nd Battalion, 6th Marines, were relieved during the night by the 1st Battalion, 7th Infantry, the relief taking place without incident.

The 2nd Battalion, 6th Marines, took station in the BOIS GROS JEAN north of PARIS-METZ road. The 2nd Battalion, 5th Marines, took station in the vicinity of MERV.

At 4:45 A.M. a half-hearted enemy attack against the north edge of the BOIS-de-BELLEAUV was repulsed with infantry and machine gun fire. The enemy was otherwise active with scattered rifle fire and intermittent machine gun fire on numerous parts of our front. Our troops were active with ambush and with reconnaissance patrols, but with incident. In addition to a barrage put down during the night, the enemy artillery continued its harassing fire on our front lines and back area, using much gas. The calibres used ranged from 77's to 210's. Our artillery replied with counter-battery and demolition fire.

The activity is often limited by the number of shells supplied by the French, who frequently report that the expenditure of ammunition by the American artillery is excessive. In order to reduce the expenditure they fix a daily supply, which, in the opinion of our artillery officers, is often inadequate.

The activity of the enemy air service during the past few days has been very marked. It maintains practically a continuous reconnaissance over our lines, particularly over our forward zone. At times they come over in large patrols. 57 planes flew over during the day. Enemy balloon activity has also increased, 15 balloons were observed in the air at one time. Our air service, which is entirely French at present, is much less active.

No definite report has yet been received of the number of killed in action in the fighting of the last two weeks. The officer in charge of the Graves Registration Bureau reported that up to 6:00 P.M., June 15th, he had records of 440 burials, including those on the battlefield and those who died at hospitals and dressing stations since June 1st, 1918. This record is not complete as his men had not had time to visit the entire area; quite a number of burials were known and would be reported as soon as practical.

The Division Surgeon reports that 380 casualties passed through our dressing station for the 24 hours ending 6:00 A.M., June 16th.

Reports from some of the organizations indicate that the men are beginning to sicken at the French canned meat, and, in general, do not like the French ration. Some diarrhea is beginning to appear. Whether this is due to the French ration or not cannot be definitely stated. Request is made to supplement the ration by fresh meat or at least a portion of the American ration.

The left or western boundary of the Second Division is now limited by the line LUCY - EGLON, HILL 126 (West of TORCY), the north-south stream passing to the east of HILL 142, CHAMPILLON - all of these points belonging to the 167th Division, French - then the previous limits. This went into effect at 6:00 P.M. today. Otherwise there is no change in the position of our lines.

Annex: Notes, orders and sketches.

---------------
WAR DIARY OF THE SECOND DIVISION
AMERICAN EXPEDITIONARY FORCES.

June 16, 1918.

Date: June 16, 1918.

Location: The Division holds the line from a point 400 metres north of MONNEAUX west of the MONNEAUX-VAUX road, through the BOIS DE CLEREMBARTS - TRIANGLE - BOURECHES, an east and west line through HILL 169, woods 1600 metres north of LUCY-le-BOCAGE to the stream line running north along the eastern base of HILL 142, and the stream junction 900 metres southwest of TOROY.

Health: Deaths including killed in action: 3 Officers, 25 men.
Sick & Wounded in hospital in present area: ................. 3 " 703 "
Sick & Wounded evacuated from present area: .................... 4 " 362 "

Ammunition on hand: Small Arms: Belts and combat trains filled.
Artillery: Combat trains filled.
Ammunition trains filled.
Additional small arms and artillery ammunition have been placed within easy reach.

Rations on hand: 3 days' reserve with troops.
3 days' reserve in supply trains.

Forage on hand: 3 days.

Replacements received: .................. 9 Officers, 233 Men.
Strength of command, present and absent: 1126 " 2593 "
Strength of command in present area: 1034 " 2587 "
Available for duty: 1034 " 2587 "

Weather: Fair.

Remarks: The front held by the division was diminished by about 600 metres by the 167th French Division taking over Hill 143 and the ridge running north from it. At 4:45 A.M. a half-hearted enemy attack against the north edge of the BOIS de BELLEAU was easily repulsed.

ATTES TED:
